

# HEALTH INSURANCE

---

All full-time undergraduate, graduate and professional students at Saint Louis University are required to have basic health insurance.

To waive United Health Plan (UHP) coverage, students must access secure online waiver screens provided by Aetna Student Health, the UHP's administrative partner. The waiver screens require students to enter their other (non-UHP) coverage details. UHP waivers completed online are only applicable to the academic year in which they are submitted. This process may require submitting a copy (front and back) of a valid insurance card. Students must complete the waiver each academic year.

Students will be billed for the University-sponsored health insurance plan on your statement of account if students do not already have health insurance coverage or have not yet submitted an insurance waiver.

The charge will appear as "Health Insurance" and be billed to your account.
