Description

The English as a Second Language Program at Saint Louis University delivers INTO Saint Louis University's (<https://www.slu.edu/admission/international/into/>) academic English and pathway programs. These programs support and prepare international students for successful undergraduate and graduate careers at Saint Louis University by strengthening their English language and intercultural communication skills while introducing them to university-level academic expectations.

Mission Statement

Saint Louis University's English as a Second Language Program is motivated by the knowledge that SLU is enriched by the global perspectives and cross-cultural exchanges that international students make possible. The program's mission is to prepare academically talented English language learners for successful careers as undergraduate and graduate students at Saint Louis University through our commitment to excellence in teaching, service and learning.

Our academic English and pathway programs integrate language study, academic skills and cultural awareness. They foster in students the intellectual curiosity that leads to recognition of a higher purpose to which we all contribute. We embrace and enact the Jesuit tradition of Saint Louis University by uniting the pursuit of individual academic excellence with our dedication to developing a community of men and women for others.

Academic English

Academic English is designed for students who need intensive English language study before beginning an undergraduate or graduate pathway program. Upon successful completion of Academic English, students may progress to an undergraduate or graduate pathway program.

Pathway Programs

Undergraduate and graduate pathway programs are ideal for international students who need additional English language and academic preparation before continuing to a degree program at Saint Louis University. The pathway programs combine intensive language study, academic skills development, and credit-bearing coursework in a customized curriculum designed to move students successfully into their undergraduate or graduate degree program.

English for International Students

The ESL Program offers English composition, rhetoric, and literature classes for international students. These courses are equivalent to their counterparts in the Department of English.

EAP 1500 College Composition for International Students (3 cr)
equivalent to

ENGL 1500 The Process of Composition (3 cr)
