

# AFRICAN AMERICAN STUDIES, B.A.

African American studies describe the systematic investigation into the vast range of racial, ethnic, cultural and political perspectives, experiences and beliefs of people of African heritage around the globe, with particular focus on the African Diaspora in the United States. Students emerge from Saint Louis University's African American Studies, B.A. program with a rigorous understanding of the histories, philosophies, culture and literature emergent from the African Diaspora, thus enabling them to embark on careers in education, law, politics, business and the arts.

African American studies offer students the opportunity to develop a deeper understanding of the vast diversity of the society in which they live. Students will become knowledgeable about the African diaspora and be prepared to seek careers or professional programs where they can utilize knowledge in the design and implementation of programs for African Americans and other diasporic communities.

Our students, staff and faculty come from a range of backgrounds, experiences and fields of study. Collectively, our mission is to combine rigorous study, creativity and research in the production and exchange of knowledge concerning the African Diaspora.

We aim to foster a community of thinkers, scholars, activists and artists whose work enriches understanding of how African Americans and other African Diasporic communities have mutually shaped the social worlds they inhabit.

SLU's African American studies major is open to all students pursuing an undergraduate degree, regardless of race, ethnicity or national origin.

## Curriculum Overview

A total of 30 credits are required to complete SLU's major in African American studies. Students complete five core courses designed to introduce them to the goals of the Department of African American Studies (<https://www.slu.edu/arts-and-sciences/african-american-studies/>) and to help them further develop an understanding of the African diaspora and its impact, interrelationships and dynamics in contemporary African American communities.

African American studies courses at Saint Louis University intersect with various academic majors. Courses that make the core of the African American studies degree are taught within our department. The department also offers cross-listed courses with other academic departments, and when taken for African American studies, requirements may also fulfill the University undergraduate core (<https://www.slu.edu/core/>) requirements. The variety of courses across academic disciplines enables students to develop new ways of conceptualizing issues related to race, identity and culture in their scholarly pursuits.

## Fieldwork and Research Opportunities

SLU's Department of African American Studies also offers unique academic opportunities such as internships and field service projects in African American communities for students looking for challenges
