

CHEMISTRY, B.A. & CHEMICAL ENGINEERING, B.S. (WASHINGTON UNIVERSITY) DUAL DEGREE

The Saint Louis University Department of Chemistry participates in a dual degree program in chemical engineering with Washington University where a student may receive a B.A. in chemistry from SLU and a B.S. in chemical engineering from Washington University after three years of study at SLU and two years at Washington University.

For additional information see the catalog entries for the following programs:

Chemistry, B.A.

Chemical Engineering, B.S. (Washington University) (<https://engineering.wustl.edu/prospective-students/dual-degree/Pages/default.aspx>)

Admission

Students typically apply to Washington University (<https://engineering.wustl.edu/prospective-students/dual-degree/Pages/application.aspx>) the winter of their junior or senior year.

The application deadline is Feb. 28. Students are encouraged to review Washington University's dual degree program admission requirements (<https://engineering.wustl.edu/prospective-students/dual-degree/Pages/financial-assistance-scholarships.aspx>).

Requirements

Students must complete all Bachelor of Arts in Chemistry requirements at Saint Louis University and the following courses:

Code	Title	Credits
CSCI 1060	Introduction to Computer Science: Scientific Programming	3
MATH 1510	Calculus I	4
MATH 1520	Calculus II	4
MATH 2530	Calculus III	4
MATH 3550	Differential Equations	3
Total Credits		18
