COMMUNICATION, M.A.

Saint Louis University's master's program in communication is designed to teach students to be conscientious thinkers and leaders who communicate effectively in a diverse world and who understand the social implications of media and communication technology. Through their coursework, our M.A. students develop fluency in communication theory that can be used to solve practical problems. Students learn to ask thoughtful questions and find engaging answers by building the skill sets necessary to develop research protocols, evaluate messages, analyze data and share these findings with various stakeholders.

Coursework options allow students to deepen their understanding of communication theory and research within a variety of areas of study, including:

- Health communication
- Intercultural communication
- Interpersonal communication
- Organizational communication
- Media studies
- Rhetoric and public dialogue
- Strategic communication

Curriculum Overview

There are three required courses in the 30-credit degree. Beyond that, students are allowed to develop a personally tailored program of study that fits their individual goals and interests. Students have three options for completing the Master of Arts degree:

- comprehensive exams
- thesis
- applied project.

Fieldwork and Research Opportunities

Working professionals and those seeking careers as organizational practitioners may be more attracted to the applied project or the comprehensive exam degree completion options, while students anticipating research-based careers or who might progress to doctoral programs should consider the thesis degree completion option.

Careers

The program prepares students for greater responsibilities in a range of professions including advertising, corporate communications, higher education, human resources, journalism, politics, public relations, research, and training and development.
