COMPUTER SCIENCE, B.S. TO COMPUTER SCIENCE, M.S. 
ACCELERATED PROGRAM

This program allows a student to complete, in accelerated fashion, both the Bachelor in Science in Computer Science and the Master of Science in Computer Science.

For additional information see the catalog entries for the following programs:

Computer Science, B.S. (http://catalog.slu.edu/colleges-schools/arts-sciences/computer-science/computer-science-bs)

Computer Science, M.S. (http://catalog.slu.edu/colleges-schools/arts-sciences/computer-science/computer-science-ms)

Requirements

Students wishing to apply to this accelerated program should have completed all 2000-level coursework required of the computer science bachelor’s program and have completed at least 75 credits at the time of application. At the time of application, students must have a cumulative GPA of at least 3.00 and a GPA of at least 3.00 in their computer science coursework.

To apply, students must submit a personal statement and arrange for two letters of recommendation from computer science faculty members.

Continuation Standards

Students must maintain a cumulative GPA of at least 3.00 and a GPA of at least 3.00 in their computer science coursework.

Students who drop below that GPA while in the accelerated program will be placed on a one-semester probationary period before being dismissed from the accelerated program.

Roadmap

Roadmaps are recommended semester-by-semester plans of study for programs and assume full-time enrollment unless otherwise noted.

Courses and milestones designated as critical (marked with !) must be completed in the semester listed to ensure a timely graduation. Transfer credit may change the roadmap.

This roadmap should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor/mentor each semester. Requirements, course availability and sequencing are subject to change.

Graduate Electives

The general requirements must include a course from at least two of the following categories:

- CSCI 5200-5299 (Language/Compilers courses)
- CSCI 5600-5699 (Large Scale Systems courses)
- CSCI 5700-5799 (Knowledge Systems)
- CSCI 5800-5899 or BCB 5200/5250 (Advanced Applications)

Program Notes

Thesis Option

A Master’s Thesis is optional. Students completing a thesis should take 6 credits of Thesis Research (Thesis Research (CSCI 5990)) as part of the elective requirements.

Internship with Industry

Students may apply at most 3 credits of Internship with Industry (CSCI 5910) toward the degree requirements.

Closely Related Disciplines

With approval, students may include up to 6 credits of elective graduate coursework in closely related disciplines (e.g., Mathematics & Statistics, Bioinformatics & Computational Biology, Electrical & Computer Engineering)

Applied Systems
