

# ENVIRONMENTAL SCIENCE, MINOR

---

Environmental science encompasses the study of Earth's environment, which is comprised of the geosphere, hydrosphere, atmosphere and biosphere, with emphasis on human interactions with these spheres.

Students minoring in environmental science at Saint Louis University will learn how these spheres interact with each other in the natural world, how human activities influence the environment and how people are affected by the ever-changing environment. The environmental science program is designed so students first gain a thorough foundation of knowledge in all spheres and then focus more on one or more sub-disciplines, for example, soil, water, energy or climate change.

## Requirements

Code	Title	Credits
<b>Required Courses</b>		
EAS 1010	Earth Systems I-The Solid Earth	3
EAS 1020	Earth's Environment I Lab	1
EAS 1030	Earth's Dynamic Environment II	3
EAS 1040	Earth's Environment II Lab	1
EAS 1080	Introduction to Environmental Science	3
EAS 2400	Field Techniques in the Geosciences	2
<b>Minor Elective Courses</b>		
Select seven to nine credits of the following:		7-9
EAS 2420	Computer Applications in Earth Science	
EAS 3050	Geomorphology	
EAS 4260	Environmental Geophysics	
EAS 4280	Environmental Geochemistry	
Total Credits		20-22

## Continuation Standards

Students with a minor in Environmental Science must maintain a 2.00 GPA in their minor coursework.
