THEOLOGY AND HEALTH CARE ETHICS, PH.D.

Students who are interested in both bioethics and theological ethics and who wish to write a dissertation on bioethics from a theological perspective should consider Saint Louis University’s joint Ph.D. in Theology and Health Care Ethics, offered by the Gnaegi Center for Health Care Ethics (https://www.slu.edu/arts-and-sciences/bioethics/) and the Department of Theological Studies (https://www.slu.edu/arts-and-sciences/theological-studies/). Unlike a dual degree, this program offers one degree: a Ph.D. in Theology and Health Care Ethics.

Curriculum Overview

The degree consists of 60 credits: 27 credits in health care ethics, 21 credits in theology and 12 dissertation research hours. Pre-comprehensive exam coursework can usually be completed in three years (nine credit hours each fall and spring). Non-coursework requirements include reading comprehension of French or German (or another language with approval of both programs), three research tools requirements in Library Database Skills, Medical Terminology and Statistics and Study Design, and written and oral comprehensive exams.

Fieldwork and Research Opportunities

All joint Ph.D. students take a three-semester, 150-hour clinical practicum to gain experience working in a clinical setting. Students interested in the clinical ethics concentration can complete an additional advanced practicum in which students are placed in active clinical ethics consultation services for 300-plus hours. In addition to these fieldwork opportunities, most Ph.D. students graduate with two or more publications.

Careers

Graduates of this program are highly qualified candidates for academic jobs in theology departments, religion departments or bioethics centers, as well as administrative jobs in mission and ethics in health care institutions.

Admission Requirements

• Transcripts
• Three letters of recommendation
• GRE scores
• Resume
• Writing sample
• Professional goals statement

Learning Outcomes

1. Graduates will be able to demonstrate a broad knowledge of the foundational disciplines, methods, topics and issues in health care ethics required for the scholarly analysis of issues in the field.
2. Graduates will be able to demonstrate an understanding of the theories and methods that structure the study of theology and religion.
3. Graduates will be able to demonstrate a proficiency in formulating original, normative theological arguments on topics related to theology and health care ethics.
4. Graduates will be able to demonstrate the ability to conceptualize, develop and bring to successful completion an original, sustained and coherent independent research project that contributes to the field (i.e. the dissertation).
5. Graduates will be able to demonstrate an ability to generate appropriate job search materials (i.e. curriculum vitae, teaching portfolio, writing sample, etc.).

Total Credits   60

Non-Course Requirements
- Research Tools Requirements (Statistics and Study Design, Library Research Skills, Medical Terminology).
- Reading comprehension of French or German (or another language with approval of faculty).
- Written and oral comprehensive exams.

Continuation Standards
Students must maintain a cumulative grade point average (GPA) of 3.50 in all graduate/professional courses.

Roadmap
Roadmaps are recommended semester-by-semester plans of study for programs and assume full-time enrollment unless otherwise noted.

Courses and milestones designated as critical (marked with !) must be completed in the semester listed to ensure a timely graduation. Transfer credit may change the roadmap.

This roadmap should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor/mentor each semester. Requirements, course availability and sequencing are subject to change.

Total Credits   60

1 Take the Consuming Empirical Literature exam the first day of class.
2 Take the Medical Terminology exam the first day of class.
3 An introduction to graduate-level database and library search skills, taught by library faculty.
4 Elective must be approved by theology/HCE joint faculty.
5 Written exam and oral exam.

Program Notes
Joint Ph.D. students are also required to demonstrate reading comprehension of French, German or another language with the consent of joint program faculty. This can be satisfied by previous coursework, an exam or by taking additional graduate-level language courses.
