**BIOINFORMATICS AND COMPUTATIONAL BIOLOGY, BACHELOR’S TO M.S. ACCELERATED PROGRAM**

Students at Saint Louis University can complete an undergraduate degree in biology, biochemistry, computer science or mathematics with the Master of Science in Bioinformatics and Computational Biology in a compressed timeframe.

Significant advantages to this program include:

- No need to take the GRE, as students will apply to the accelerated program in the spring of their junior year
- Double counting up to 15 credits of coursework simultaneously toward undergraduate and graduate degree requirements
- Beginning some of the graduate coursework during the final undergraduate year
