

FORENSIC SCIENCE, MINOR

Saint Louis University's forensic science minor focuses on applying science to legal problems. It complements the study of science, medicine or law.

Program Highlights

- SLU's minor in forensic science requires 22 credits, combining 14 credits of required courses and eight credits of electives.
- SLU's forensic science faculty offers the academic and practical experience to deliver high-impact instruction and provide the tools to work for social justice in the spirit of Catholic, Jesuit education (<https://www.slu.edu/about/catholic-jesuit-identity/>).
