

FRENCH, B.A.

Saint Louis University's Bachelor of Arts in French program, offered by the Department of Languages, Literatures and Cultures (<https://www.slu.edu/arts-and-sciences/languages-literatures-cultures/>), aims to develop students' competency in the language while increasing their knowledge of the French-speaking world.

As the living environment becomes increasingly transnational, a major in French offers an attractive asset to careers in many fields, including business, medicine, politics, law and the humanities. In addition, the major prepares students for graduate work in French by providing them with a broad range of courses in French and Francophone literature and culture.

Additional program highlights:

- We offer a wide variety of French-speaking courses, including French and International Relations, Business French, French Cinema and French and Francophone Media.
- Students can spend a year in Lyon, France. This yearlong, full-immersion program allows students to experience the country and its culture firsthand. Students will take classes in the French university system with French students and other international students. Courses fulfill requirements for French majors at SLU, and students may also have an opportunity to complete some of their core requirements while in Lyon.
- Students can also spend a semester or a year in Poitiers, France, studying at the Université de Poitiers alongside other international students and native French speakers. Courses taken in this full-immersion program may count toward the student's major or minor in French, study in other disciplines or core requirements.
- The French experience at SLU extends beyond the classroom walls. The department offers frequent *activités culturelles* open to all levels and hosts a chapter of the national French honor society, Pi Delta Phi. Students can also participate in service opportunities in the St. Louis community.

Curriculum Overview

French course offerings cover all centuries of French literature and culture, Francophone and postcolonial studies, gender studies, and interdisciplinary areas such as art and literature, music and literature, cinema, cross-cultural questions, literature and the environment. Unique undergraduate offerings allow students to combine international, scientific and professional interests with French.

Fieldwork and Research Opportunities

Students are encouraged to enhance their major through an immersion experience in a French-speaking country. SLU French majors often complete a major in another discipline (English, biology, psychology, international business, communication, etc.).

Careers

The benefits of the French program also include several career opportunities. Combining practical aspirations with the humanizing and broadening effects of language study, the undergraduate major prepares students to perform in many rewarding careers. Accessibility to faculty
