

# URBAN POVERTY STUDIES, MINOR

Drawing on the long tradition of Saint Louis University's commitment to the city of St. Louis, the interdisciplinary minor in urban poverty studies is an examination of local, national and global forms of poverty, inequality and social injustice in urban environments.

## Curriculum Overview

Through coursework and practical experience serving in the city of St. Louis, students from across academic disciplines will think critically about the most pressing problems faced by people living on the margins in contemporary cities. In addition, they will investigate the ways in which the minor can supplement their major field of study.

The 15-credit interdisciplinary minor is open to all undergraduates at the University, regardless of their college/school or major.

## Requirements

Courses listed below in each category are only a sample of the overall course options which fulfill requirements for the minor. No course may fulfill more than one urban poverty studies minor requirement.
