- Emphasis on global strategic planning and regional expertise

Curriculum Overview

Advancing Business in a Globally Connected World

SLU’s 21-month, 36-credit Executive Master of International Business degree (EMIB) combines business curriculum with international business challenges, solutions and cultural differences. It provides business professionals with the skills needed to navigate the complex global business environment. Students move through the program as a cohort group in a team-based environment, fostering collaboration and networking. A two-week international immersion course in Asia or Latin America provides a cultural and global business experience.

Careers

Graduate students in our Executive Master of International Business program have access to the Valerie A. Davisson Career Resources Center, conveniently located within the School of Business, which serves as the catalyst for creating meaningful connections, developing outstanding internships and employment opportunities, and providing other valuable career management services.

Data from the 2020 student survey issued by the Executive MBA Council revealed that graduates receive a 14.1% increase in compensation - combined, both salary and bonuses - upon completion of an executive MBA program. Data from graduates of the Executive Master of International Business (EMIB) program revealed a higher increase. In the past five years, EMIB graduates have received an average increase of 25% in total compensation upon graduation, fostering collaboration and networking. A two-week international immersion course in Asia or Latin America provides a cultural and global business experience.
