DEPARTMENT OF INTERNATIONAL BUSINESS

Leadership
Hadi Alhorr, Ph.D.
Chair

Overview
With the U.S. economy more global than ever, the study of international business has never been more important. The Richard A. Chaifetz School of Business offers a comprehensive international business program with degree programs at the bachelor's, master's and doctoral levels.

The courses, taught by highly qualified, degreed faculty and select successful global executives, integrate key principles of business practice with the nuance of different cultures, languages, political structures and economies.

International business students are supported with advising, an international business student club, scholarships for outstanding students and assistance with mentors and internships via the alumni network and local-global professionals.

The department also manages a number of study abroad opportunities for business students. This immersion is essential for a well-rounded, global education.
