DEPARTMENT OF OPERATIONS AND INFORMATION TECHNOLOGY MANAGEMENT

Leadership
Palash Bera, Ph.D.
Chair

Overview
The Department of Operations and Information Technology Management offers a bachelor’s of science degree in Business Technology Management with a choice of Analytics and Enterprise Systems concentration.

Saint Louis University's Richard A. Chaifetz School of Business (https://www.slu.edu/business/) is a member of the SAP University Alliance, which allows the school to provide students in certain courses with hands-on experience with SAP software (the world leader in enterprise systems software). This enables students to put classroom theory into practice with real-world tools.

Students who possess a working knowledge of enterprise resource planning (ERP) using SAP software have the opportunity to obtain an SAP Certificate awarded by SAP America, Inc. The certification positions students for employment with organizations that use SAP/ERP and others who use non-SAP/ERP tools (e.g., PeopleSoft).
