Description
Originally established in 1925, the School of Education is the academic home for all baccalaureate and post-baccalaureate programs in education at Saint Louis University. As a school within a Catholic, Jesuit institution, the School of Education offers its students an excellent professional education.

The main objective of all programs is to prepare dedicated, reflective scholar-practitioners who exhibit the knowledge, skills, and dispositions embedded in the school's conceptual framework. As reflective scholar-practitioners, the shared values that guide our school include social justice, cura personalis, excellence, integrity, trust, and respect. Students are prepared to be reflective educators who can implement educational programs consistent with their areas of expertise.

The School of Education is committed to the interdisciplinary preparation of undergraduate and graduate students for professions to serve as reflective scholar-practitioners and leaders in partnership with and for the human community. The school is dedicated to truth and excellence in all academic pursuits. The school embraces innovative learning through a commitment to diversity and social justice guided by the spiritual and intellectual ideals of the Jesuit tradition. The school advances the University's mission by its research and service to family, school and community.
