

# EDUCATION POLICY AND EQUITY PROGRAM

---

## Leadership

Kathryn Mitchell Pierce, Ph.D.  
*Program Director*

## Overview

Saint Louis University's program in education policy and equity, designed to support critical inquiry into the nature of education policy and practice, provides an ideal environment for those who want to develop advanced skills as educational researchers. Through an interdisciplinary course of study, students accepted into the program learn to evaluate educational practices and analyze issues in education policy from a social justice perspective.

## About the Faculty

Faculty members take a genuine interest in students, serve as strong role models of success and acquaint students with the challenges and joys of the profession. The faculty seeks an appropriate balance between theory and practice, between action and reflection, and between intellect and affect.
