

# FLIGHT SCIENCE, MINOR

All Saint Louis University undergraduate students, including those who have not declared a specific major or are pursuing pre-professional programs such as pre-law and pre-medicine, are eligible to obtain a minor in Flight Science. This minor will enable the students to obtain their Private Pilot Certificate, Instrument Rating, Commercial Pilot Certificate, and Multiengine Rating. Note: Additional fees apply to all flight courses –contact SLU's Department Aviation Science (<https://catalog.slu.edu/colleges-schools/engineering-aviation-technology/aviation/>) for current rates. (Not available for the online track.)

## Requirements

Code	Title	Credits
ASCI 1300	Aviation Weather	3
FSCI 1150	Flight 1	3
FSCI 1250	Basic Flight Foundations	3
FSCI 1550	Flight 2	3
FSCI 2150	Flight 3	3
FSCI 2250	Instrument Flight Foundations	3
FSCI 2550	Flight 4	3
FSCI 2650	Navigation Foundations	3
FSCI 3550	Flight 5	3
<b>Total Credits</b>		<b>27</b>

### Program Notes

The Department of Aviation Science will give priority registration to students enrolled in the B.S. in Aeronautics degree. Students pursuing majors outside the Department of Aviation Science are eligible to pursue the minor in Flight Science only if flight slots are available. Each semester, students pursuing the minor will be evaluated on a case-by-case basis.

### Continuation Standards

A student may remain academically eligible to continue coursework in the department's academic concentrations by maintaining a minimum GPA of 2.00 or the equivalent of a letter grade of "C."

Any student receiving a single "C-", "D", "F", or "U" grade in a course with an ASCI or FSCI prefix that is required for graduation in the aviation management or flight science concentration or flight science minor will be required to repeat the course in which the "C-", "D", "F", or "U" grade was received. If the course is a prerequisite to another course in the aviation management or flight science concentration, the student will be required to repeat the course in which the "C-", "D", "F", or "U" grade was received. The student will not be allowed to progress into the subsequent course until a grade of C is achieved in the prerequisite course.

Students enrolled in the flight science minor are allowed two attempts to earn a grade of "C" or better in any of the flight courses that are part of the minor. A student receiving a "C-", "D", "F", or "U" grade in a repeated course is subject to dismissal from the program.

### Good Standing

Students are considered to be in good academic standing if they are not on probation (either University probation or program probation) and have not been dismissed or suspended from Saint Louis University.

See Information Concerning University Probation

Students in the flight science concentration or minor may not enroll in a flight course while on University probation. A student previously on University probation will be allowed to enroll in a flight course once their academic status has been listed as being in "good standing."

An appeal of a grade, progression in the concentration or minor, or dismissal from the concentration or minor may be made in accordance with the procedures outlined in the Department of Aviation Science Student Appeal Process, a copy of which can be obtained from the department chairperson or from the Parks College of Engineering, Aviation and Technology Office of the Dean.

Students should be aware that situations such as those described above could jeopardize one's planned graduation date due to the manner in which courses are scheduled each academic year.
