

AEROSPACE ENGINEERING, MINOR

Saint Louis University's aerospace engineering minor is open to students pursuing a bachelor's degree in aviation science, mathematics, computer science, physics, mechanical engineering, electrical and computer engineering or biomedical engineering programs.

SLU's minor in aerospace engineering requires at least 18 credits of coursework that include a course in Introduction to Aeronautics and Astronautics (AENG 2000 Intro to Aeronautics and Astron (3 cr)) and at least five AENG or ESCI courses at the 2000 level or above (beyond the requirements for a major).

Continuation Standards

- Grades in all AENG/ESCI minor courses must be C or better.
- Students must maintain a minimum 2.00 GPA.
