HEALTH SCIENCES, HEALTH INFORMATION MANAGEMENT, B.S. TO HEALTH DATA SCIENCE, M.S. ACCELERATED PROGRAM

Saint Louis University's accelerated Bachelor of Science in Health Sciences-Health Information Management/Master of Science in Health Data Science is designed for students who demonstrate academic success in health information management and related coursework.

The concentration in health information management (HIM) blends the study of medical sciences, health data, information technology, legal concepts and health care management.

Students in the HIM program learn the nuances of health care delivery, health care data, data management, health information technology and medical-legal aspects of health care. This knowledge establishes a strong foundation for students interested in pursuing an M.S. in Health Data Science (https://www.slu.edu/medicine/health-and-clinical-outcomes-research/degrees/health-data-science-ms.php).

Students retain undergraduate status, financial aid and tuition rates until their Bachelor of Science degree is conferred after year four. At that time, students attain official graduate student status, pay graduate tuition and become eligible for graduate assistantships.

For additional information, see the catalog entries for the following programs:

Health Sciences, B.S., Health Information Management (https://catalog.slu.edu/colleges-schools/health-sciences/clinical-health-sciences/health-sciences-bs/)

Health Data Science, M.S. (https://www.slu.edu/medicine/health-and-clinical-outcomes-research/degrees/health-data-science-ms.php)

Accreditation

The B.S. in Health Sciences-Health Information Management is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

Requirements

Eligibility requirements for SLU's health sciences, health information management, B.S. to health data science, M.S. accelerated program include:

- · Students must have a minimum cumulative GPA of 3.00
- Students must be in good academic and disciplinary standing with Saint Louis University and the Doisy College of Health Sciences.
- Students must be in their sixth semester of collegiate study and on the accelerated health information management to M.S. health data science track and submit a letter of interest to the Health Information Management Program.
- Students will substitute designated graduate health data science courses for undergraduate health information management courses in the seventh and eighth semesters.

- In the eighth semester, students will apply to the M.S. in health data science program.
- Accepted students will continue M.S. in health data science graduate coursework in the summer semester after graduating with a B.S in health sciences, health information anagement concentration

Roadmap

Course

Roadmaps are recommended semester-by-semester plans of study for programs and assume full-time enrollment unless otherwise noted.

Courses and milestones designated as critical (marked with !) must be completed in the semester listed to ensure a timely graduation. Transfer credit may change the roadmap.

This roadmap should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor/mentor each semester. Requirements, course availability and sequencing are subject to change.
