MAGNETIC RESONANCE IMAGING, B.S.

Saint Louis University’s Bachelor of Science in Magnetic Resonance Imaging is one of only two programs of its kind in the country. SLU’s MRI program contains a strong science curriculum that prepares students for immediate job placement as well as graduate study.

Magnetic resonance imaging (MRI) is a medical imaging technique that uses a large magnet and radio waves to create clear pictures of internal body structures. MRI provides excellent contrast between the different soft tissues of the body and is especially useful in imaging the brain, spine, joints, muscles and other structures. The superior resolution of the images and advancing technology is rapidly increasing the variety of exams an MRI technologist will perform.

MRI technologists are educated and trained to work with patients and other health care team members to obtain high-quality images safely and effectively. MRI offers procedures that are helpful to a broad span of medical specialties. These specialties include neurology, sports medicine, cardiology, pediatrics and more.

Program Highlights
The advantages of earning your B.S. in MRI at Saint Louis University include:

- A tailored curriculum that allows for diverse areas of concentration
- Clinical training sites within the St. Louis metropolitan area
- An interprofessional focus that emphasizes a team approach to healthcare
- Instruction and individual mentorship by professionally credentialed MRI faculty
- Medically relevant coursework ideal for pre-professional curriculum options, including pre-med and pre-physician assistant
- Opportunities to participate in professional conferences with faculty and fellow students
- Undergraduate opportunities to conduct research and produce projects/papers acceptable for publication and presentation at professional conferences

Program Effectiveness Data (https://www.slu.edu/doisy/degrees/program-pdfs/mri-program-effectiveness-data.pdf)

Curriculum Overview
Saint Louis University’s Bachelor of Science in Magnetic Resonance Imaging prepares graduates for entry-level positions as MRI technologists. The program includes all basic sciences and an intensive MRI curriculum that includes approximately 1,000 hours of clinical practicum. Upon successful completion of the program, graduates are eligible for national certification to become registered MRI technologists/radiologic technologists (MR).

Clinical and Research Opportunities
Students in SLU’s MRI degree program have opportunities to conduct research and produce projects and papers that are acceptable for publication and could be presented at professional conferences. MRI students are encouraged to join and participate in the American Society of Radiologic Technologists (ASRT).

Careers
The practice of MRI encompasses multidisciplinary skills. The responsibilities of the MRI technologist include:

- Operation of imaging, laboratory and computer instrumentation
- Empathetic and instructional approach to patient care
- Preparation of contrast agents
- Performance of quality control procedures
- Application of accepted standards of MRI safety and protection

Jobs can be found in the following settings:

- Medical and surgical hospitals
- Freestanding clinics
- Physician offices
- Research institutions

Some jobs are classified as traveling jobs where the employee provides temporary help to short-staffed departments for a while. These technologists regularly travel, with the length of stay and location varying.

Career advancement opportunities from the position of staff technologist may lead to areas of administration, education, sales or research.

The salary range for an MRI technologist depends on geographic location, years of experience and education. According to the Bureau of Labor Statistics, the median annual wage was $81,530 in 2022.

Admission Requirements
Freshmen Applicants
Solid academic performance in college preparatory coursework is a primary concern in reviewing a first-year applicant’s file.

- Admission criteria include:
  - Minimum cumulative GPA of 2.70 on a 4.00 scale
  - Saint Louis University has a test-optional admission process for all undergraduate programs. Applicants may submit standardized test scores, but those who choose not to will not be disadvantaged in any way in the admission process.

Transfer Applicants
The minimum college transfer GPA is 2.70/4.00.

International Applicants
All admission policies and requirements for domestic students apply to international students, along with the following:

- Proof of financial support must include:
  - A letter of financial support from the person(s) or sponsoring agency funding your time at Saint Louis University.
  - A letter from the sponsor’s bank verifying that the funds are available and will be so for the duration of your study at the University.
- Academic records, in English translation, of students who have undertaken postsecondary studies outside the United States must include the courses taken and/or lectures attended, practical
laboratory work, the maximum and minimum grades attainable, the grades earned or the results of all end-of-term examinations, and any honors or degrees received. WES and ECE transcripts are accepted.

Information on Summer Tuition (https://catalog.slu.edu/academic-policies/student-financial-services/summer-tuition/)

**Scholarships and Financial Aid**

There are two principal ways to help finance a Saint Louis University education:

- **Scholarships**: Awarded based on academic achievement, service, leadership and financial need. In addition to University scholarships, the Doisy College of Health Sciences offers scholarships (https://www.slu.edu/doisy/about/scholarships-for-current-students.php) to sophomores, juniors, seniors and graduate students.

- **Financial Aid**: Provided in the form of grants and loans, some of which require repayment.

For priority consideration for merit-based scholarships, applicants should apply for admission by Dec. 1 and complete a Free Application for Federal Student Aid (FAFSA) by March 1.

For more information, visit the student financial services office online at http://finaid.slu.edu (http://finaid.slu.edu/).

**Accreditation**

The magnetic resonance imaging program at Saint Louis University is fully accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), having been awarded an eight-year accreditation. The program's next scheduled accreditation review is in the third quarter of 2027.

Joint Review Committee on Education in Radiologic Technology (JRCERT)
20 N. Wacker Drive, Suite 2850
Chicago, Illinois 60606-3182
312-704-5300
http://www.jrcert.org (http://www.jrcert.org/)

For more information about the SLU magnetic resonance imaging program's goals, program outcomes, certification examination pass rates, job placement rates, technical standards and program-specific costs, please review the additional accreditation information document.

View Additional Accreditation Information (PDF) (https://www.slu.edu/doisy/degrees/program-pdfs/mri-accreditation.pdf)

**Learning Outcomes**

**Doisy College of Health Sciences Learning Outcomes**

1. Graduates will be able to demonstrate the Jesuit mission by caring for the whole patient.
2. Graduates will be able to demonstrate effective communication skills when interacting in the MRI profession.
3. Graduates will be able to apply critical reasoning as it relates to the MRI setting.
4. Graduates will be able to demonstrate the application of professional knowledge.
5. Graduates will be able to recognize ethical practices in the health care setting.

**Magnetic Resonance Imaging Program Learning Outcomes and Goals**

1. Students will be clinically competent.
   a. Students will appropriately use, record, and verify patient data.
   b. Students will position patients as directed.
   c. Students will use the proper imaging sequences for ordered exams.
   d. Students practice proper MRI and patient safety.

2. Students will demonstrate problem-solving and critical-thinking skills.
   a. Students will complete imaging procedures, explaining steps in detail.
   b. Students will prepare case studies and MRI final capstone project.

3. Students will demonstrate effective communication skills.
   a. Students will appropriately communicate with patients.
   b. Students will demonstrate appropriate written communication.
   c. Students will demonstrate proper presentation skills.

4. Students will demonstrate professional growth and development.
   a. Students will demonstrate professional behaviors.
   b. Students will have knowledge of ethical behaviors.
   c. Students will demonstrate professional growth through critical thinking.

The program annually tracks student learning outcomes as they relate to the above student goals.

**Requirements**

Students in Saint Louis University’s magnetic resonance imaging program take the following courses.

Continuation Standards
Students must maintain a cumulative grade point average (GPA) of 2.70 to remain in good standing.

Roadmap
Roadmaps are recommended semester-by-semester plans of study for programs and assume full-time enrollment unless otherwise noted.

Courses and milestones designated as critical (marked with !) must be completed in the semester listed to ensure a timely graduation. Transfer credit may change the roadmap.

This roadmap should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor/mentor each semester. Requirements, course availability and sequencing are subject to change.

Program Notes

Successful completion of this program leads to a second baccalaureate degree in magnetic resonance imaging. This option is for a student who already possesses a bachelor’s degree and is motivated to become a practicing magnetic resonance technologist.

To be considered for the second baccalaureate degree option, the applicant must have satisfactorily completed a baccalaureate degree, with a minimum GPA of 2.7 (on a 4.0 scale), including the prerequisite courses listed above.

The applicant must complete the application for the MRI program and submit official transcripts of prior college work through the SLU admission website (https://www.slu.edu/admission/).
The applicant must show satisfactory evidence of good character and physical ability to perform the functions of magnetic resonance technologists. All applicants must meet the professional performance and technical standards required by the profession. Students must also successfully complete a drug screen and criminal background check prior to the start of clinical rotations.

Application to the program is via a competitive application process with admission granted on a space-available basis. The selection process includes a personal interview for qualified applicants.

Selection Factors — Among the parameters considered by the selection committee are:

• Applicant’s academic potential as evidenced by previous performance in college
• Specific motivation toward the pursuit of a health care profession
• Evidence of sound judgment
• Interpersonal and communication skills
• Job shadowing in a magnetic resonance imaging department is highly recommended
