# **MEDICAL SCIENCES, B.S.**

Saint Louis University's medical sciences program meets the needs of students considering a wide variety of career paths in the health sciences. It is designed mainly as a pre-professional program for students looking to advance in health care education. It is ideal preparation for medical, physician assistant, anesthesiologist assistant, dental, pharmacy, optometry or other health-related graduate programs.

# **Program Highlights**

SLU's medical sciences program:

- · Focuses on human health and diagnostic studies
- Consistently has a low student-faculty ratio which allows for more individualized attention
- Provides students opportunities to conduct research with faculty members, present their research findings at professional conferences and have their work published in various journals

## **Curriculum Overview**

SLU's medical sciences curriculum provides graduates with the knowledge and skills to enhance their competitive edge in seeking employment or further their education in professional programs, especially medical and physician assistant schools.

This curriculum offers:

- Basic science courses that are required for the Medical College Admission Test (MCAT) and for admission into medical school
- A strong foundation in both basic sciences and medical courses in various areas of diagnostic medicine, such as urinalysis and body fluids, medical biochemistry, hematology and hemostasis, fundamental immunology, immunohematology and medical microbiology
- · An excellent option for medical and physician assistant scholars
- A uniquely flexible curriculum that can accommodate a minor, certificate, or combination to meet the student's professional goals.
   Pre-medicine, Medical Scholar, pre-physician assistant (PA) and PA Scholars curricula are the main options for degree candidates.
- An active student association sponsoring service projects, social events, fundraisers and trips to professional conferences
- · Opportunities for research

# **Clinical and Research Opportunities**

Students will have the opportunity to conduct research and produce projects and papers for publication and presentation at professional conferences.

#### **Careers**

The advantages of SLU's medical sciences program include a wide range of career paths available to graduates. They include:

- · Professional School and Programs
  - Medical, dental, optometry, physician or anesthesiologist assistant
  - Veterinary science, public health
  - · Federal, state or municipal crime laboratory programs
- · Graduate School

- · Pathology, microbiology, pharmacology
- · Physiology, forensic science
- Medical Research
  - · National Institutes of Health
  - · Centers for Disease Control
  - · Pharmaceutical research
  - Universities
- · Other Career Options
  - · Biotechnology technician
  - · Pharmaceutical technical or sales representative

# **Admission Requirements**

## **Freshmen Applicants**

Solid academic performance in college preparatory coursework is the primary consideration when reviewing freshmen applications.

Admission criteria include:

- · Minimum cumulative GPA of 3.00 on a 4.00 scale.
- Four years of high school math (with algebra), biology, chemistry, and English, with some physics recommended
- Saint Louis University has moved to a test-optional admission process for all undergraduate programs. Applicants may submit standardized test scores, but those who choose not to will not be disadvantaged in any way in the admission process.

### **Transfer Applicants**

Transfer applicants must have at least a "C-" in all math and science coursework and a 2.70 cumulative GPA from an accredited (https://catalog.slu.edu/academic-policies/academic-policies-procedures/regional\_accredidation/) college-level institution. Interested applicants who do not meet all the admission requirements should still apply for individual consideration.

## **Tuition**

Tuition	Cost Per Year
Undergraduate Tuition	\$52,260

Additional charges may apply. Other resources are listed below:

# **Scholarships and Financial Aid**

There are two principal ways to help finance a Saint Louis University education:

 Scholarships: Awarded based on academic achievement, service, leadership and financial need. In addition to University scholarships, the Doisy College of Health Sciences offers scholarships (https:// www.slu.edu/doisy/about/scholarships-for-current-students.php) to sophomores, juniors, seniors and graduate students.

 Financial Aid: Provided in the form of grants and loans, some of which require repayment.

For priority consideration for merit-based scholarships, applicants should apply for admission by Dec. 1 and complete a Free Application for Federal Student Aid (FAFSA) by March 1.

For more information, visit the student financial services office online at http://finaid.slu.edu (http://finaid.slu.edu/).

## **Learning Outcomes**

- Graduates will be able to demonstrate the Jesuit value of "women and men for and with others" to promote service in the medical sciences
- Graduates will be able to deliver a clear description of a medical science project.
- Graduates will be able to critically evaluate data in the medical sciences.
- 4. Graduates will be able to apply clinical knowledge to interpret medical science data to develop a differential diagnosis.
- Graduates will be able to display knowledge of professional and ethical behaviors necessary to work effectively in an interdisciplinary team

## Requirements

Students in Saint Louis University's medical sciences major take the following courses.

### **Continuation Standards**

Current students must maintain a minimum 2.5 grade point average (GPA) and earn a C- or better in math, science, and program specific courses (BLS or MLS prefix).

Students entering the program beginning Fall 2023 and beyond must maintain a minimum 2.70 GPA and earn a C- or better in math, science, and program specific courses (BLS or MLS prefix).

## Roadmap

Roadmaps are recommended semester-by-semester plans of study for programs and assume full-time enrollment unless otherwise noted.

Courses and milestones designated as critical (marked with!) must be completed in the semester listed to ensure a timely graduation. Transfer credit may change the roadmap.

This roadmap should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor/mentor each semester. Requirements, course availability and sequencing are subject to change.

#### **Program Notes**

The Pre-PA curriculum is based on the SLU PA program requirements and is not guaranteed to meet all the prerequisites of all PA programs. Prospective PA students need to identify the programs to which they intend to apply and ascertain what courses are needed to fulfill the application requirements for those schools.
