

CENTER FOR ANATOMICAL SCIENCE AND EDUCATION

Leadership

John R. Martin, III, Ph.D.

Graduate Program Director and Director, Center for Anatomical Science and Education

Patty Anderson

Anatomy Graduate Program Coordinator

Overview

Offered through Saint Louis University's Center for Anatomical Science and Education (CASE), graduate programs in anatomy can assist in M.D. or Ph.D. postdoctoral training and stimulate interest in research. Students will advance the frontiers of their knowledge and technical expertise through active participation in various research projects.

CASE has been an established academic center providing expert anatomical education for more than 100 years. Graduate students perform research projects by working with a faculty mentor whose research interests match their own. Doctoral students are expected to publish and present a minimum of two research projects. The program also offers a concentration in neurobiology for Ph.D. students that can help prepare students for a career in neuroscience-related areas.

Programs

- Anatomy, M.S. (<https://catalog.slu.edu/colleges-schools/medicine/anatomy/master-science-anatomy/>)
- Anatomy, Ph.D. (<https://catalog.slu.edu/colleges-schools/medicine/anatomy/doctor-philosophy-anatomy/>)
- Medical Anatomy and Physiology, Post-Baccalaureate Certificate (<https://catalog.slu.edu/colleges-schools/medicine/anatomy/medical-anatomy-physiology-preparatory/>)

Faculty

Michael Ariel, Ph.D.

Daniel T. Daly, D.C., Ph.D

Craig Lawson, M.D., Ph.D.

Joshua W. Little, D.C., Ph.D.

John R. Martin III, Ph.D.

Yun Tan, M.D., Ph.D.

MariaTeresa A. Tersigni-Tarrant, Ph.D., D-ABFA
