CENTER FOR ANATOMICAL SCIENCE AND EDUCATION

Leadership
John R. Martin, III, Ph.D.
Graduate Program Director and Director, Center for Anatomical Science and Education
Patty Anderson
Anatomy Graduate Program Coordinator

Overview
Offered through Saint Louis University's Center for Anatomical Science and Education (CASE), graduate programs in anatomy can assist in M.D. or Ph.D. postdoctoral training and stimulate interest in research. The Medical Sciences M.S. prepares students for medical school. Students will advance the frontiers of their knowledge and technical expertise through active participation in various research projects at SLU.

CASE has been an established academic center providing expert anatomical education for more than 100 years. Graduate students perform research projects by working with a faculty mentor whose research interests match their own. Doctoral students are expected to publish and present a minimum of two research projects. The program also offers a concentration in neurobiology for Ph.D. students that can help prepare students for a career in neuroscience-related areas.

Programs
• Anatomy, M.S. (https://catalog.slu.edu/colleges-schools/medicine/anatomy/master-science-anatomy/)
• Anatomy, Ph.D. (https://catalog.slu.edu/colleges-schools/medicine/anatomy/doctor-philosophy-anatomy/)
• Medical Anatomy and Physiology, Post-Baccalaureate Certificate (https://catalog.slu.edu/colleges-schools/medicine/anatomy/medical-anatomy-physiology-preparatory/)
• Medical Sciences, M.S. (https://catalog.slu.edu/colleges-schools/medicine/anatomy/medical-sciences-ms/)

Faculty
Michael Ariel, Ph.D.
Daniel T. Daly, D.C., Ph.D.
John R. Martin III, Ph.D.
Yun Tan, M.D., Ph.D.
Meadow Campbell, Ph.D.
Jay Bauman, Ph.D.
Aidan Ruth, Ph.D.
Alicia Pate, Ph.D.
