

# NURSING PRACTICE, D.N.P. (POST-BACHELOR OF SCIENCE IN NURSING)

Saint Louis University Doctor of Nursing Practice is a practice-focused doctoral degree that educates nurses to become expert clinicians, leaders in health policy and catalysts for improved health care delivery within an m environment.

This program offers:

- Full- and part-time curriculum plans
- A variety of specialty areas and role options
- The option to emphasize research in any specialty area
- Responsive faculty who are nationally recognized for teaching excellence, nursing leadership, scholarly research and student mentorship
- Faculty advisers who are individually assigned to mentor each student throughout the program
- An online library
- An online writing center
- State-of-the-art teaching facilities

Students may choose from five concentrations, allowing them to customize the patient population with which they will work most:

## Adult/Gerontological Acute Care Nurse Practitioner

If you choose the adult/gerontological acute care nurse practitioner program, you will learn to use complex monitoring and invasive therapies, high-intensity interventions, and continuous vigilance within the range of high-acuity care to help meet the specialized physiological and psychological needs of adults of all ages, including the frail elderly.

Adult/gerontological acute care nurse practitioners work in emergency departments, tertiary care settings, intensive care units, trauma centers and specialty medicine areas treating patients with acute, critical and chronic illness, as well as those with disabilities or injuries. Graduates are eligible for national certification through the American Nurses Credentialing Center.

## Adult/Gerontological Primary Care Nurse Practitioner

Graduates of SLU's adult/gerontological primary care nurse practitioner program are prepared to provide advanced nursing care for adolescents and adults of ages. You will work with patients who require diagnosis, treatment and management of episodic or chronic conditions that are best treated on an outpatient basis. These include people with diabetes, hypertension, respiratory conditions as well as sprains/strains.

You will also conduct wellness examinations. Adult-Gerontology nurse practitioners work in hospital-based clinics, within the VA medical system, and in internal medicine or specialty private-practice offices. Graduates are eligible for national certification through the American Nurses Credentialing Center and the American Academy of Nurse Practitioners Certification Program.

## Family Nurse Practitioner

SLU's family nurse practitioner program prepares you to provide primary health care to patients of all ages. You will help prevent disease, assess

and manage acute and chronic health problems, and consult and refer patients within the health care system. SLU's program emphasizes quality relationships with patients, families and communities, as well as education and coordination of services aimed at specific health outcomes.

FNPs work in a variety of settings and are also well-suited to rural populations, where specialty care may not always be available. Graduates are eligible for national certification from the American Nurses Credentialing Center and the American Academy of Nurse Practitioners Certification Program.

## Pediatric Primary Care Nurse Practitioner

If you choose the pediatric primary nurse practitioner program, you will be prepared to provide care to patients from birth through the age of 21. PNP's focus on health promotion, disease prevention, and management of acute and chronic conditions in pediatric offices as well as school, community, urgent care and specialty settings.

Graduates are eligible for national certification from the American Nurses Credentialing Center and Pediatric Nursing Certification Board.

## Family Psychiatric-Mental Health Nurse Practitioner

If you pursue the SLU's family psychiatric/mental health nurse practitioner program, you will work with children, adolescents and adults of all ages with acute or complex mental health needs, or psychiatric diagnoses. SLU's family psychiatric mental health nurse practitioner program encourages evidence-based, culturally sensitive, recovery-oriented and holistic care.

You will be prepared to apply the nursing process and medical/medication management to promote optimal mental health while engaging in active, ongoing collaboration with clients, their families, significant others, and the interprofessional team. Graduates are eligible for national certification through the American Nurses Credentialing Center.

## Curriculum Overview

The Post-Bachelor of Science in Nursing to Doctor of Nursing Practice program requires a total of 68 credits beyond the B.S.N., depending on the population specialty focus. The courses can be taken over a four-to-five-year period with full- or part-time study.

Students will complete the program with 1,050 or 1,125 clinical hours, depending on the specialty.

Four visits to Saint Louis University's campus are required. The first is a two-day orientation, online education and the role of nurse practitioners. The second is a three-day residency at the School of Nursing, where your knowledge of the curriculum's content, including diagnostic reasoning, clinical assessment skills and therapeutic communication, will be assessed. The next visit is an orientation to doctoral-level course work. The fourth occurs at the end of the program to present the D.N.P. project.

## Careers

Graduates of the Doctor of Nursing Practice program are prepared to be nurse clinicians or educators. Graduates influence health policy at institutional, local, state and national levels and formulate strategies to maximize patient health.

## Admission Requirements

Saint Louis University School of Nursing adheres to the principles of a holistic admission process in which selection criteria are broad-based and linked to our University's and School's mission and goals. While we do consider academic metrics we also look at applicant experiences, attributes, potential for success, and how applicants may contribute to the school's learning environment and to the profession.

Saint Louis University School of Nursing accepts applications to the D.N.P. program from students living in the following states: Alabama, Alaska, Arizona, Arkansas, California, Colorado, Delaware, Florida, Georgia, Hawaii, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, Ohio, Oklahoma, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia and Wisconsin.

- Baccalaureate degree in nursing from a program accredited by a nationally recognized accrediting agency.
- One year of clinical experience.
- Cumulative grade point average of 3.50 or higher on a 4.00 system.
- Three recommendations from people (preferably from master's or doctorally prepared nurses) who can speak to your potential for success from an academic and/or professional perspective.
- A statement addressing your goal for doctoral study, research translation area of interest for the capstone project and your career goals. This must be two-pages, typewritten and double-spaced.
- An unencumbered registered nurse license in the state in which clinical experience will be done.
- Current CPR certification from the American Heart Association.
- Completion of an undergraduate-level descriptive and inferential statistics course.
- Completion of a beginning-level health assessment or equivalent course.

### Application Requirements

- Application form and fee
- Transcript(s)
- Three letters of recommendation
- Résumé
- Interview (possible)
- Professional goal statement

### Requirements for International Students

All admission policies and requirements for domestic students apply to international students along with the following:

- Demonstrate English Language Proficiency (<http://catalog.slu.edu/academic-policies/office-admission/undergraduate/english-language-proficiency>)
- Proof of financial support must include:
  - A letter of financial support from the person(s) or sponsoring agency funding the time at Saint Louis University
  - A letter from the sponsor's bank verifying that the funds are available and will be so for the duration of study at the University
- Academic records, in English translation, of students who have undertaken postsecondary studies outside the United States must include the courses taken and/or lectures attended, practical laboratory work, the maximum and minimum grades attainable, the

grades earned or the results of all end-of-term examinations, and any honors or degrees received. WES and ECE transcripts are accepted.

### Application Deadlines

Students should apply for the spring semester by August 1 and the fall semester by March 1.

### Review Process

Applications will be reviewed shortly after the submission deadline. Applicants will have a decision six to eight weeks after that time.

## Scholarships and Financial Aid

The Saint Louis University School of Nursing offers scholarship and graduate research assistantship opportunities to eligible graduate students. Financing for this program may be available through grants, scholarships, loans (federal and private) and institutional financing plans. Additionally, most nursing students will participate in a tuition assistance program provided through their employer.

For more information, visit the student financial services office online at <http://finaid.slu.edu>.

## Accreditation

The Bachelor of Science in Nursing, Master of Science in Nursing and Doctor of Nursing Practice at Saint Louis University School of Nursing are accredited by the Commission on Collegiate Nursing Education (<http://www.aacn.nche.edu/ccne-accreditation>) and approved by the Missouri State Board of Nursing. To achieve its educational objectives, the School uses the hospitals within the Health Sciences Center and many health care organizations of greater St. Louis.

The School of Nursing is fully approved by the Missouri State Board of Nursing.

## Learning Outcomes

1. Graduates will be able to use advanced knowledge of mid-range and translational theories from nursing and other disciplines as a framework for advanced nursing practice.
2. Graduates will be able to critically examine research and scholarship to support evidence-based clinical practice.
3. Graduates will be able to exemplify ethical principles in the delivery of comprehensive health care.
4. Graduates will be able to formulate strategies to maximize health in patient populations.
5. Graduates will be able to develop clinical competence for advanced practice that provides consumers with primary, secondary and/or tertiary health care.
6. Graduates will be able to use technology and information to improve health care.
7. Graduates will be able to apply principles of epidemiology, biostatistics, and environmental sciences to recognized populations at risk, patterns of disease, and effectiveness of prevention and intervention.
8. Graduates will be able to apply current knowledge of organizations and financing of health care systems to improve the outcomes of care.
9. Graduates will be able to design and implement processes to evaluate outcomes and systems for health care delivery.

10. Graduates will be able to use business and management strategies for the provision of quality care and efficient use of resources.
11. Graduates will be able to use advanced communication and leadership skills with interprofessional health care teams to create and evaluate health care delivery systems.
12. Graduates will be able to influence health policy at institutional, local, state, and national levels.

NURS 5950	Special Study for Exams	0
Total Credits		21

### Continuation Standards

Students must maintain a cumulative grade point average (GPA) of 3.00 in all graduate/professional courses.

## Roadmap

Roadmaps are recommended semester-by-semester plans of study for programs and assume full-time enrollment unless otherwise noted.

Courses and milestones designated as critical (marked with !) must be completed in the semester listed to ensure a timely graduation. Transfer credit may change the roadmap.

This roadmap should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor/mentor each semester. Requirements, course availability and sequencing are subject to change.
