HEALTH ADMINISTRATION, M.H.A. (EXECUTIVE)

Saint Louis University’s Executive Master of Health Administration offers a hybrid format to better fit the needs of working professionals by blending distance learning with monthly face-to-face classes.

Curriculum Overview
As one of the nation’s most established M.H.A. programs, SLU’s M.H.A. connects students to a coast-to-coast network of internship sites and alumni working in senior leadership positions.

The curriculum has as its foundation the areas of knowledge basic to health management and policy. The M.H.A. is offered as a resident program and, in order to meet the needs of working professionals, as an executive program (E.M.H.A.) that blends distance learning with monthly face-to-face classes.

Fieldwork and Research Opportunities
The program offers students a practice-integrated education. Students are transformed into knowledgeable, ethical professionals prepared for a range of management careers across the health sector.

Careers
M.H.A. graduates occupy senior management positions in a variety of health care settings. Alumni work in health and hospital systems, insurance companies, academic medical centers, physician practices, consulting firms and benefit management organizations.

The 2017 class had a 100 percent graduation rate and 95 percent were pursuing full-time careers in their fields (60 percent), fellowships (31 percent) or seeking further graduate education (4 percent) within 90 days of graduation.

The 2017 alumni are working in:
- Hospitals and health systems (27 percent)
- Managed care or insurance (13 percent)
- Law/other (12 percent)
- Consulting (8 percent)
- Medical group management (6 percent)

Admission Requirements
A bachelor’s degree or the equivalent from an accredited college or university. The E.M.H.A. is limited to established professionals looking to advance their careers.

Application Requirements
- Application form and fee
- Transcript(s)
- Three letters of recommendation
- Résumé/curriculum vitae
- Interview
- Professional goal statement

Requirements for International Students
All admission policies and requirements for domestic students apply to international students along with the following:
- Demonstrate English Language Proficiency (http://catalog.slu.edu/academic-policies/office-admission/undergraduate/english-language-proficiency)
- Proof of financial support must include:
  - A letter of financial support from the person(s) or sponsoring agency funding the time at Saint Louis University
  - A letter from the sponsor’s bank verifying that the funds are available and will be so for the duration of study at the University
- Academic records, in English translation, of students who have undertaken postsecondary studies outside the United States must include the courses taken and/or lectures attended, practical laboratory work, the maximum and minimum grades attainable, the grades earned or the results of all end-of-term examinations, and any honors or degrees received. WES and ECE transcripts are accepted.

Application Deadline
Applications are accepted on a rolling basis until classes are full.

Review Process
All applications are considered on an individual basis with a balanced approach. Candidates may be invited to an on-site interview.

Scholarships and Financial Aid
The College for Public Health and Social Justice offers several ways to help finance graduate education. Opportunities include a limited number of merit-based scholarships and graduate research assistantships. Awards are made to applicants with the highest combinations of GPAs and test scores who complete their applications by the priority deadlines.

For more information, visit the student financial services office online at http://finaid.slu.edu.

Accreditation
The College for Public Health and Social Justice is fully accredited by the Council on Education for Public Health (CEPH).

Learning Outcomes
Saint Louis University’s Master of Health Administration (M.H.A.) works to transform talented service-motivated students into knowledgeable, ethical professionals prepared for a range of management careers across the U.S. health sector (adapted from M.H.A. mission statement). To achieve this goal the program relies on competency-based education. In fact, SLU’s M.H.A. program has a long history of competency-based education (CBE). In 2002 the program developed one of the three nationally recognized competency models that has since been adopted and adapted by health management and health administration programs throughout the country.

In keeping with CBE, classes and the corresponding learning objectives are organized to meet sixty core competencies necessary for success in health administration across the broad health sector (Attachment I). Similar types of knowledge, skills and abilities are grouped into six competency domains (leadership, critical thinking, science/analysis, management, political and community development and communication).
