Chair, Health Management and Policy
Anne Sebert Kuhlmann, Ph.D.
Chair, Behavioral Science and Health Education

Description
The Saint Louis University’s College for Public Health and Social Justice is committed to a strong Jesuit tradition of caring and advocating for the underserved and marginalized.

Each major requires a minimum of 120 credits for graduation. Service-learning, field experience, immersion trips, and the opportunity to study on the Madrid Campus are additional features of the undergraduate program.

A School of Public Health was established at SLU in 1991, and undergraduate degree programs in public health and health management date back to 2007. The current Saint Louis University’s College for Public Health and Social Justice (CPhSJ) was established in 2013. It is composed of three departments and one school that administers the academic programs and conducts state-of-the-art research.

Mission
Based on a commitment to service to others, the College for Public Health and Social Justice improves health and well-being locally, nationally and internationally through unique interdisciplinary approaches that inspire students, generate knowledge and engage individuals and communities.

Accreditation
The College for Public Health and Social Justice is fully accredited by the Council on Education for Public Health (CEPH).
