Curriculum Overview

SLU's applied behavior analysis curriculum includes six three-credit courses, six credits of thesis, and three, three-credit practica courses. Students must complete 1,000 hours of field practicum under the supervision of a board-certified behavior analyst. This program is offered in full-time and part-time formats.

This program is also offered with a specialization in gerontology, which includes two additional three-credit courses and requires that two of the practica focus on older adults. Students can complete the M.S. in either five semesters (full-time plan) or in six semesters (part-time plan) based upon the needs of the student and depending on thesis completion schedule.

Board Certified Behavior Analyst (BCBA)

Students seeking BCBA certification must complete 1,000 clock hours of field practicum (333-334 hours per semester) under the supervision of a Board Certified Behavior Analyst (BCBA). Five hours a week need to be research hours with SLU BCBA faculty.

Fieldwork and Research Opportunities

SLU’s applied behavior analysis program offers students a practice-integrated education. Students are transformed into knowledgeable, ethical, scientist-practitioners prepared for a range of clinical and management careers across the health, education and social services sector.

Careers

After graduation, applied behavior analysis students are eligible to sit for the examination to become a board certified behavior analyst (BCBA). Alumni from this program have gone on to provide behavioral health services to a range of individuals, from children and adults with intellectual disabilities and autism spectrum disorders to leading state education initiatives and advocacy projects.

Practitioners use direct assessments, research evidence, and single-subject research designs to inform and evaluate interventions designed to increase behavior (e.g., social skills) or decrease behavior (e.g., aggression). ABA approaches may involve services for a full spectrum of mental health disorders, especially developmental disorders. Other areas of practice include work with communities and organizations.

• 18 credit hour tuition remission (nine per semester)
• 9-month stipend (paid in nine equal payments at the end of the month – August through April)
