SOCIAL WORK, B.S.

A degree in social work gives students the skills to improve the quality of life for individuals or communities faced with difficulties such as poverty, serious illness or disability.

Social workers seek to help individuals, families, groups and communities address challenges in their lives. As a part of the College for Public Health and Social Justice, Saint Louis University's social work degree prepares students for generalist social work practice that integrates knowledge and skills with field experience.

Additional degree options include:

- **Accelerated program**: High achieving students may apply to this selective program during their junior year of study. This accelerated program allows students to earn a B.S. in social work in four years and a Master of Social Work (M.S.W.) with just one additional year of study.
- **Honors courses**: For students interested in the stimulating academic experiences and intellectual challenges provided by the University Honors program, social work courses can be taken for Honors as part of the major in addition to fulfilling core course requirements.
- **Minor**: A minor in social work will give students an understanding of the profession and the core values of the field for students pursuing other majors.

Curriculum Overview

The social work curriculum contains 42 credits of major courses covering topics such as human behavior and the social environment, and three practice courses that address social work with individuals, families and groups, and organizations and communities. During the senior year, students spend two semesters in a social service agency, supervised by an experienced social worker. Science, math and humanities courses and electives fill out the remainder of the 120 credits required for the major.

- Every social work student receives personalized, one-on-one support from a faculty mentor and academic advisor.
- The curriculum allows students to explore areas of interest through the projects they pursue and practicum.
- Through fieldwork and service learning, social work students gain real-world work experience outside the classroom.

Fieldwork and Research Opportunities

For students interested in a global education, there are a wide variety of study abroad programs available at SLU, including a campus located in Madrid, Spain. Students majoring in social work at SLU can also enroll in a two-week experiential course in Belize, Ghana, Ireland, Cuba or India, which features concentrated study, lectures and interactions with the people of the respective country.

From strong service-learning components, students embody the University's Jesuit mission by using the knowledge they gain in the classroom to serve others. In addition to volunteer work, students can explore different types of social work with guidance from seasoned professionals through partnerships with more than 250 social service agencies around the St. Louis area.

Careers

Social work graduates from Saint Louis University can look forward to careers in a wide variety of settings. U.S. Labor Department projections indicate a steady demand in social work jobs in the years ahead. Most social workers specialize in an area of practice, including but not limited to:

- Clinical work
- Child welfare or family services
- Mental health
- Schools
- Policymaking and advocacy
