

# HEALTH MANAGEMENT, MINOR

Saint Louis University's minor in health management provides students with an introduction to the structure and management of the U.S. health care system. Throughout their coursework, students examine challenges that impact delivery of care, such as those related to organization, finance, policy, and operations.

A minor in health management is an excellent choice for students who seek to supplement their primary field of study with training in healthcare systems. Pre-health students will add to their studies by gaining insight into the structures and systems in which they will work as future clinicians.

The health management minor is offered through the College for Public Health and Social Justice (<https://www.slu.edu/public-health-social-justice/>), accredited by the Council on Education for Public Health. A total of 18 credits are required to complete the health management minor.

## Curriculum Overview

The minor in health management includes 6 credits of required coursework that introduces students to the healthcare system and management of health care organizations. Students then select 12 credits of elective coursework that includes topics such as health care economics, health care marketing, health care operations, health care financial management, and more.

## Requirements

Code	Title	Credits
<b>Required Courses</b>		
HMP 1300	Contemporary Challenges in Health Care	3
HMP 2500	Management of Health Care Organizations	3
<b>Elective Courses</b>		<b>12</b>
HMP 2300	Population Health Management	
HMP 3200	Health Care Economics & Policy

HMP 3500	Health Care Human Resources Management	
HMP 4200	Health Care Financial Management	
HMP 4500	Health Operations Management	
<b>Total Credits</b>		<b>18</b>

## Program Notes

Minimum grade of "C" needed in all minor courses. Maximum of 6 credits may double-count between the Health Management minor and the Public Health minor.

## Roadmap

Roadmaps are recommended semester-by-semester plans of study for programs and assume full-time enrollment unless otherwise noted.

Courses and milestones designated as critical (marked with !) must be completed in the semester listed to ensure a timely graduation. Transfer credit may change the roadmap.

This roadmap should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor/mentor each semester. Requirements, course availability and sequencing are subject to change.
