DEPARTMENT OF AEROSPACE AND MECHANICAL ENGINEERING

Leadership
Sridhar Condoor, Ph.D.
Department Chair

Overview
Design aircraft, or explore the universe in aerospace engineering. Work in a highly multi-disciplinary field, working with all facets of machines and designs in mechanical engineering.

Aerospace Engineering
From super-efficient subsonic jet liners to a trans-atmospheric aircraft that can fly into orbit, aerospace engineers create new technologies in commercial aviation, defense systems, space exploration and unmanned aerial systems. SLU provides aerospace engineering students with a challenging technical education emphasizing the understanding of complex systems. It launches your career with easy access to a sophisticated computer-aided design laboratory, wind tunnels, a structures laboratory, a reconfigurable engineering flight simulator and unmanned aerial systems labs. In addition, design skills are carefully integrated into engineering courses. The design experience culminates in a sequence of two capstone design courses during the senior year.

Mechanical Engineering
Mechanical Engineering is a broad and challenging engineering discipline. Mechanical engineers create products and systems ranging from consumer products to automated processes that are essential to our society. SLU provides a unique, intellectually challenging, hands-on curriculum that integrates broad-based technical knowledge with tangible skills. Students learn the principles of solid modeling during the first two semesters. From there, they go on to study creative problem-solving, design and product realization. Hands-on lab experiences in fluid dynamics, thermodynamics, machine shop, wind tunnels, water tunnel and mechatronics labs provide a well-rounded engineering experience.

Programs
• Aerospace and Mechanical Engineering, B.S. Double Major (https://catalog.slu.edu/colleges-schools/science-engineering/aerospace-mechanical/aerospace-engineering-bs-mechanical/)
• Aerospace Engineering, B.S. (https://catalog.slu.edu/colleges-schools/science-engineering/aerospace-mechanical/aerospace-engineering-bs/)
• Aerospace Engineering, Minor (https://catalog.slu.edu/colleges-schools/science-engineering/aerospace-mechanical/aerospace-engineering-minor/)
• Engineering, B.S. to Engineering, M.S. Accelerated Program (https://catalog.slu.edu/colleges-schools/science-engineering/engineering-abm/)
• Mechanical Engineering, B.S. (https://catalog.slu.edu/colleges-schools/science-engineering/aerospace-mechanical/mechanical-engineering-bs/)

Faculty
Theodosios Alexander, Sc.D.
Richard Andres, Ph.D., Emeritus
Patricia Benoy, Ph.D., Emeritus
Sridhar Condoor, Ph.D.
John George, Ph.D., Emeritus
Jenna Gorlewicz, Ph.D.
Srikanth Gururajan, Ph.D.
Sanjay Jayaram, Ph.D.
Swami Karunamoorthy, Ph.D., Emeritus
Ray LeBeau, Ph.D.
Chi Hou Lei, Ph.D.
Jeff Ma, Ph.D.
Mark McQuilling, Ph.D.
Michael Swartwout, Ph.D.
