COMPUTER SCIENCE, B.A. TO ARTIFICIAL INTELLIGENCE, M.S. ACCELERATED PROGRAM

This program allows a student to complete, in an accelerated fashion, both the Bachelor of Arts in Computer Science and the Master of Science in Artificial Intelligence at Saint Louis University.

For additional information, see the catalog entries for the following programs:

Computer Science, B.A. (https://catalog.slu.edu/colleges-schools/science-engineering/computer-science/computer-science-ba/)

Artificial Intelligence, M.S. (https://catalog.slu.edu/colleges-schools/science-engineering/computer-science/artificial-intelligence-ms/)

Requirements

Students who wish to apply to this accelerated program should have completed all 2000-level coursework required of the computer science bachelor's program and have completed at least 75 credits at the time of application. At the time of application, students must have a cumulative GPA of at least 3.00 and a GPA of at least 3.00 in their computer science coursework.

Contact the graduate coordinator for more details.

Non-Course Requirements

All Science and Engineering B.A. and B.S. students must complete an exit interview/survey near the end of their bachelor's program.

Continuation Standards

Students must maintain a cumulative GPA of at least 3.00 and a GPA of at least 3.00 in their computer science coursework.

Students who drop below that GPA while in the accelerated program will be placed on a one-semester probationary period before being dismissed from the accelerated program.

Only grades of B or better in the graduate courses taken while an undergraduate can be applied to the master's degree.

Roadmap

Roadmaps are recommended semester-by-semester plans of study for programs and assume full-time enrollment unless otherwise noted.

Courses and milestones designated as critical (marked with !) must be completed in the semester listed to ensure a timely graduation. Transfer credit may change the roadmap.

This roadmap should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor/mentor each semester. Requirements, course availability and sequencing are subject to change.

Course	Title	Credits
Year One		
Fall		
CSCI 10xx (p. 2)	Introduction to Computer Science [†]	3
MATH 1660	Discrete Mathematics	3
University Core and/or General Electives		9
	Credits	**15**
Spring		
CSCI 1300	Introduction to Object-Oriented Programming	4
MATH 1510	Calculus I	4
University Core and/or General Electives		6
	Credits	**14**
Year Two		
Fall		
CSCI 2100	Data Structures	4
CSCI 2500	Computer Organization and Systems	3
MATH 1520	Calculus II	4
University Core and/or General Electives		6
	Credits	**17**
Spring		
CSCI 2300	Object-Oriented Software Design	3
CSCI 2510	Principles of Computing Systems	3
MATH 3850	Foundation of Statistics	3
University Core and/or General Electives		6
	Credits	**15**
Year Three		
Fall		
CSCI 3100	Algorithms	3
University Core and/or General Electives		12
	Credits	**15**
Spring		
5000-level version of CSCI Systems Elective		3
PHIL 3050X	Computer Ethics	3
University Core and/or General Electives		9
	Credits	**15**
Year Four		
Fall		
CSCI 4961	Capstone Project I	2
CSCI 5750	Introduction to Machine Learning	3
University Core and/or General Electives		9
	Credits	**14**
Spring		
CSCI 4962	Capstone Project II	2
CSCI 5740	Introduction to Artificial Intelligence	3
University Core and/or General Electives		9
	Credits	**14**
Year Five		
Fall		
CSCI 5030	Principles of Software Development	3
Artificial Intelligence Foundation selection		3

Artificial Intelligence Applications selection		3
Artificial Intelligence Elective		3
	Credits	**12**
Spring		
CSCI 5961	Artificial Intelligence Capstone Project	3
Artificial Intelligence Foundations selection		3

[a] Waiver replacement for CSCI 5050: Computing and Society

Introduction to Computer Science

Code	Title	Credits
CSCI 1010	Introduction to Computer Science: Principles	
CSCI 1020	Introduction to Computer Science: Bioinformatics	
CSCI 1025	Introduction to Computer Science: Cybersecurity	
CSCI 1030	Introduction to Computer Science: Game Design	
CSCI 1040	Introduction to Computer Science: Mobile Computing	
CSCI 1050	Introduction to Computer Science: Multimedia	
CSCI 1060	Introduction to Computer Science: Scientific Programming	
CSCI 1070	Introduction to Computer Science: Taming Big Data	
CSCI 1080	Introduction to Computer Science: World Wide Web	
CSCI 1090	Introduction to Computer Science: Special Topics	

With permission, a computing-intensive course from another discipline may be substituted. Examples of such courses include:

Code	Title	
BME 2000	Biomedical Engineering Computing	
CVNG 1500	Civil Engineering Computing	
STAT 3850	Foundation of Statistics	

Systems

Code	Title	Credits
CSCI 4500	Advanced Operating Systems	
CSCI 4530	Computer Security	
CSCI 4550	Computer Networks	
CSCI 4610	Concurrent and Parallel Programming	
CSCI 4620	Distributed Computing	

Program Notes

CSCI 5050 Computing and Society (3 cr) requirement will be waived for students who took Computer Ethics as an
undergraduate; these hours would become an additional graduate elective.

Thesis Option

A master's thesis is optional. Students completing a thesis should take six credits of Thesis Research Thesis Research (CSCI 5990) as part of the elective requirements.

Internship with Industry

Students may apply at most three credits of Internship with Industry (CSCI 5910) toward the degree requirements.

Closely Related Disciplines

With approval, students may include up to six credits of elective graduate coursework in closely related disciplines (e.g. mathematics and statistics, bioinformatics and computational biology, electrical and computer engineering).
