**STEM ENTREPRENEURSHIP, M.S.**

Saint Louis University's M.S. in STEM Entrepreneurship was developed to build a STEM-trained workforce with the entrepreneurial skillset necessary to create true change and tackle global societal challenges, such as the NAE Grand Challenges (http://www.engineeringchallenges.org/challenges.aspx) or the UN Sustainable Development Goals (https://sdgs.un.org/goals/), in alignment with our Jesuit mission.

This 11-month Master of Science degree program is a cohort-based program that begins each summer and spans three terms: summer, fall and spring. This unique program, administered jointly between the School of Science and Engineering and the Chaifetz School of Business, is focused on technology innovation, entrepreneurship and commercialization.

**Curriculum Overview**

The M.S. in STEM Entrepreneurship is an 11-month cohort-based program consisting of 36 credit hours spanning technical, STEM, entrepreneurship and business coursework, and an experiential entrepreneurship studio research sequence. Each cohort starts in June, with participants taking nine credit hours, including their foundational entrepreneurship coursework and the initiation of their year-long entrepreneurship research sequence. The fall term includes 15 credit hours and offers participants the opportunity to identify a technical STEM elective and to pursue coursework towards select business certificates. The spring term concludes the program with 12 credit hours, another technical STEM elective, completion of their business certificates, and the finalization of their entrepreneurship research project.

**Careers**

The M.S. in STEM Entrepreneurship is designed to provide individuals with technical backgrounds in STEM fields with the entrepreneurship and business skills necessary to become innovators in lead industrial growth areas such as geospatial, agricultural technology, bioscience and health innovation, digital transformation, financial technology and advanced manufacturing.

**Admission Requirements**

- Bachelor's degree with a minimum cumulative GPA of 3.0
- Background (completed major / minor OR job related experience) in chemistry, biology, physics, computer science, engineering, geographic information systems, biochemistry, environmental science, technology, data analytics / handling, etc.
- Official transcripts from all undergraduate and graduate institutions
- Application packet submissions:
  - Statement of Intent (Why this program? Why is this important for your career aspirations?)
  - Entrepreneurship Statement (Why do you think you will make a good entrepreneur? What have you done or plan to do to become more entrepreneurial?)
  - Resume or CV
- Three (3) recommendations

**International Requirements**

All admission policies and requirements for domestic students apply to international students. International students must also meet the following additional requirements:

- Demonstrate English Language Proficiency (https://catalog.slu.edu/academic-policies/office-admission/undergraduate/english-language-proficiency/)
- Financial documents are required to complete an application for admission and be reviewed for admission and merit scholarships.
- Proof of financial support that must include:
  - A letter of financial support from the person(s) or sponsoring agency funding the student’s time at Saint Louis University
  - A letter from the sponsor’s bank verifying that the funds are available and will be so for the duration of the student’s study at the University
- Academic records, in English translation, of students who have undertaken postsecondary studies outside the United States must include:
  - Courses taken and/or lectures attended
  - Practical laboratory work
  - The maximum and minimum grades attainable
  - The grades earned or the results of all end-of-term examinations
  - Any honors or degrees received.

WES and ECE transcripts are accepted.

- Miscellaneous Fees (https://catalog.slu.edu/academic-policies/student-financial-services/fees/)
- Information on Summer Tuition (https://catalog.slu.edu/academic-policies/student-financial-services/summer-tuition/)

**Scholarships and Financial Aid**

Both the School of Science and Engineering and the Chaifetz School of Business offer generous scholarships to make attaining a graduate degree from our programs accessible. Some competitive donor scholarships include:

- Donald and Nora Manahan Scholarship and Research Fund
- Gerald E. Dreifke Engineering Scholarship
- Malcolm and Elizabeth Jacobs Scholarship
- SSE Graduate Fellowship
- Peter Jackalus Graduate Fellowship

For more information about other financial aid, please visit the Office of Student Financial Services (https://www.slu.edu/financial-aid/).
Learning Outcomes

1. Students will demonstrate the ability to develop creative/innovative solutions to technological problems and to implement those as business opportunities.
2. Students will demonstrate proficiency in technical communication skills in written and oral formats.
3. Students will demonstrate knowledge of ethical concepts and corporate social responsibility and be able to evaluate both business and technical problems from multiple ethical perspectives.
4. Students will develop a strategic level understanding of the key functions of business: accounting, economics, finance, international business, management, marketing, operations and statistics.

**Business Electives or Business Certificate**

Students can select from the options below OR one of the business certificates

- OPM 6050 Business Process and Operations Management
- MKT 6400 Social Media and Digital Marketing
- ITM 6550 Big Data in Organizations
- MKT 6150 New Product Management

Other business courses or other STEM technical electives with program approval

Digital Marketing, Post-Baccalaureate Certificate (https://catalog.slu.edu/colleges-schools/business/marketing/digital-marketing-post-baccalaureate-certificate/)

Product and Brand Management, Post-Baccalaureate Certificate (https://catalog.slu.edu/colleges-schools/business/marketing/product-brand-mgt-post-baccalaureate-certificate/)

Continuation Standards

Students must maintain a cumulative grade point average (GPA) of 3.00 in all graduate/professional courses.

Roadmap

Roadmaps are recommended semester-by-semester plans of study for programs and assume full-time enrollment unless otherwise noted.

Courses and milestones designated as critical (marked with !) must be completed in the semester listed to ensure a timely graduation. Transfer credit may change the roadmap.

This roadmap should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor/mentor each semester. Requirements, course availability and sequencing are subject to change.
