

BEHAVIORAL MEDICINE & HEALTH (BMH)

BMH 0100 - Behavioral Medicine and Health

Credit(s): 2-10 Credits (Repeatable for credit)

The primary goal of the Behavioral Medicine and Health course is to provide you with the foundational knowledge and skills related to behavioral and psychological issues in medicine needed to begin your third-year clerkships. In addition to preparation for the third year, we believe that the course will be invaluable in your preparation for the Step 1 examination.
