

EDUCATION RESEARCH (EDR)

EDR 3890 - Quantitative and Qualitative Methods in Research

Credit(s): 3 Credits (Repeatable for credit)

This course will begin with an introduction to the philosophical base, a survey of different modes of inquiry. Using this philosophical base, a survey of different modes of inquiry both quantitative and qualitative will be studies using several examples from the disciplines within the College. Emphasis in the course will be placed on the students actively reading and critiquing research from a variety of disciplines as well as in developing a proposal for research study while working in interdisciplinary teams.

Restrictions:

Enrollment is limited to students with a major in Education.

EDR 3891 - Quantitative and Qualitative Methods in Research

Credit(s): 3 Credits

This course will begin with an introduction to the philosophical base, a survey of different modes of inquiry. Using this philosophical base, a survey of different modes of inquiry both quantitative and qualitative will be studies using several examples from the disciplines within the College. Emphasis in the course will be placed on the students actively reading and critiquing research from a variety of disciplines as well as in developing a proposal for research study while working in interdisciplinary teams.

EDR 3930 - Special Topics

Credit(s): 3 Credits (Repeatable for credit)

EDR 3980 - Independent Study

Credit(s): 1 or 3 Credits (Repeatable for credit)

EDR 4930 - Special Topics

Credit(s): 1-3 Credits (Repeatable for credit)

EDR 4970 - Action Research for Educ

Credit(s): 1 Credit

This course introduces students to action research techniques and their application to schools. Students come to the course with a basic understanding of research methods. The course then builds on this basic understanding to focus on approaches to action research to use in schools. Students will be required to conduct an action research project. Their involvement in the action research studies and the course readings will provide the background for class discussions.

Restrictions:

Enrollment is limited to students with a major in Education.

EDR 4980 - Advanced Independent Study

Credit(s): 0-3 Credits (Repeatable for credit)

EDR 5000 - General Research Methods for Education

Credit(s): 3 Credits

This course provides a survey of the techniques, methods and tools of research in education. Included is general discussion of the research process followed by examination of several different study designs such as observational, experimental, descriptive and sample survey. The course also provides an overview of different methods of sampling, data collection and analysis frequently used in research literature. (Offered every Spring semester)

EDR 5100 - Intro to Inferential Stats: Ed

Credit(s): 3 Credits

This course is a survey of basic statistical methods including descriptive statistics, z-tests and t-tests of means and proportions, chi-square analyses, correlation and regression analyses, and analysis of variance. The statistical package for the social sciences (SPSS) will also be used. (Offered every Fall semester)

EDR 5200 - Test Construction Techniques

Credit(s): 3 Credits

The Test Construction course is designed to assist educators in learning how to create useful and psychometrically sound examinations. It provides a research based overview of the different testing formats and the advantages and limitations of each format.

EDR 5400 - Qual Research in Education

Credit(s): 3 Credits

Students will learn the qualitative research paradigm, data collection and analysis techniques and report writing. Offered every fall and spring semester.

EDR 5500 - Evaluation of Education Programs

Credit(s): 3 Credits

Course introduces students to program evaluation techniques and their application to schools. Builds on a basic understanding of research and evaluation processes to focus on alternative approaches to program evaluation and practical guidelines. Students will be required to conduct mini-evaluations; their involvement in these evaluations and the course reading will provide the background for seminar discussions. offered every fall semester.

EDR 5600 - General Research Methods for Education

Credit(s): 3 Credits

This course provides a survey of the techniques, methods and tools of research in education. Included is general discussion of the research process followed by examination of several different study designs such as observational, experimental, descriptive and sample survey. The course also provides an overview of different methods of sampling, data collection and analysis frequently used in research literature. (Offered every Spring semester)

EDR 5930 - Special Topics

Credit(s): 3 Credits (Repeatable for credit)

EDR 5950 - Special Study for Exams

Credit(s): 0 Credits (Repeatable for credit)

Special Study for Exams.

EDR 5980 - Graduate Reading Course

Credit(s): 1-3 Credits

Prior permission of guiding professor required.

EDR 5990 - Thesis Research

Credit(s): 0-6 Credits

Research.

EDR 6000 - Professional Writing

Credit(s): 3 Credits

General theory of research: some emphasis on educational applications and quantitative approaches. Offered annually.

Prerequisite(s): EDR 5000; EDR 5100; EDR 5400

EDR 6010 - Doctoral Residency

Credit(s): 0-3 Credits

Prior permission of guiding professor.

EDR 6020 - Advanced Research Methods in Education**Credit(s): 3 Credits**

This course will provide an introduction to all types of research design. The course is designed to allow doctoral students the opportunity to investigate various forms of research design to help them determine the best design for their specific research based on their dissertation selection.

EDR 6060 - Research Design and Analysis**Credit(s): 3 Credits**

Prerequisites: EDR 5000; EDR 5100.

Prerequisite(s): EDR 5000; EDR 5100

EDR 6070 - Evidence Based Decision Making**Credit(s): 3 Credits**

This course will introduce graduate students to the basics of educational research. It will provide an overview of basic statistical techniques which are used in educational research; the fundamentals of qualitative and quantitative educational research methodologies; designing educational research proposals; and how to read and evaluate published articles which report educational research.

EDR 6100 - Intermediate Applied Statistics for Education**Credit(s): 3 Credits**

This course provides background in many applied statistical techniques. A focus of the course is to develop students' understanding of multiple techniques so that they may judge the legitimacy of statistical results in articles and choose appropriate statistical methods. Topics include effect size, ANOVA, ANCOVA, MANOVA, regression and correlation, test construction, and multiple nonparametric tests. SPSS will be utilized throughout the course. This course can be used as a final statistics course or as a bridge for those students who want to pursue more advanced courses.

Prerequisite(s): EDR 5000; EDR 5100

EDR 6150 - Single Subject Experimental Research Design**Credit(s): 3 Credits**

This course is an advanced quantitative research course concentrating on single subject research design and analysis for educators. It is designed to prepare students to design, conduct, and evaluate research using single subject designs. An understanding of the salient features as well as the advantages and disadvantages of these research methods is provided. Students will also analyze published research that uses these methods. Offered in spring in even years.

Prerequisite(s): EDR 5000; EDR 5100

EDR 6400 - Advanced Qual Research for Ed**Credit(s): 3 Credits**

The primary purpose of this course is to provide students with the skills needed to conduct publishable qualitative research in education. Multiple qualitative methods will be used. An additional goal is to provide students with the tools or results that will be useful to them in their future work.

(Offered every Spring)

Prerequisite(s): EDR 5000; EDR 5100; EDR 5400

EDR 6500 - Multilevel Regression Models**Credit(s): 3 Credits**

This class introduces students how to analyze multilevel data where observations are nested within larger clusters, such as repeated measures nested within individuals, individuals nested within classrooms, and classrooms nested within schools. Advanced topics include longitudinal data analysis, discrete dependent variables, meta-analysis, and power and design considerations. Offered occasionally.

Prerequisite(s): EDR 6100

EDR 6600 - Designing Mixed Methods Research**Credit(s): 3 Credits**

This course introduces students to the issues and principles of mixed methods research design, based on the collection of qualitative and quantitative data that inform one another and result in valid and credible research. Students will design a mixed methods study appropriate for proposed research questions, including a theoretical framework. Social justice will be emphasized as a framework for mixed methods projects. Offered periodically in fall..

Prerequisite(s): EDR 5000; EDR 5100

EDR 6650 - Seminar: Reading Research**Credit(s): 3 Credits**

Research techniques and findings are extensively reviewed. Offered occasionally.

EDR 6710 - Sem: Current Res in Ed Psych**Credit(s): 3 Credits**

A detailed review of research in the field of educational psychology. Offered occasionally.

EDR 6930 - Special Topics

Credit(s): 3 Credits (Repeatability up to 12 credits)

EDR 6950 - Special Study for Exams

Credit(s): 0 Credits (Repeatable for credit)

Special study for exams.

EDR 6960 - Project Guidance

Credit(s): 0-4 Credits (Repeatable for credit)

EDR 6970 - Research Topics in Education**Credit(s): 3 Credits**

Prerequisites: EDR 5000; EDR 5100; EDR 5400.

Prerequisite(s): EDR 5000; EDR 5100; EDR 5400

EDR 6971 - Research Topics EdD

Credit(s): 3 Credits (Repeatable for credit)

Same as EDR 6970 except this course is for Ed.D. students.

Restrictions:

Enrollment limited to students in a Doctor of Education degree.

EDR 6980 - Graduate Reading Course

Credit(s): 1-3 Credits (Repeatable for credit)

Prior permission of guiding professor required.

EDR 6990 - Dissertation Research

Credit(s): 0-12 Credits (Repeatable for credit)

Research.
