EDUCATION RESEARCH (EDR)

EDR 3891 - Quantitative and Qualitative Methods in Research  
Credit(s): 3 Credits  
This course will begin with an introduction to the philosophical base, a survey of different modes of inquiry. Using this philosophical base, a survey of different modes of inquiry both quantitative and qualitative will be studied using several examples from the disciplines within the College. Emphasis in the course will be placed on the students actively reading and critiquing research from a variety of disciplines as well as in developing a proposal for research study while working in interdisciplinary teams.

EDR 3930 - Special Topics  
Credit(s): 3 Credits (Repeatable for credit)

EDR 3980 - Independent Study  
Credit(s): 1 or 3 Credits (Repeatable for credit)

EDR 4930 - Special Topics  
Credit(s): 1-3 Credits (Repeatable for credit)

EDR 4970 - Action Research for Educators  
Credit(s): 1 Credit  
This course introduces students to action research techniques and their application to schools. Students come to the course with a basic understanding of research methods. The course then builds on this basic understanding to focus on approaches to action research to use in schools. Students will be required to conduct an action research project. Their involvement in the action research studies and the course readings will provide the background for class discussions.

Restrictions:  
Enrollment is limited to students with a major in Education.

EDR 4980 - Advanced Independent Study  
Credit(s): 0-3 Credits (Repeatable for credit)

EDR 5000 - General Research Methods for Education  
Credit(s): 3 Credits  
This course provides a survey of the techniques, methods and tools of research in education. Included is general discussion of the research process followed by examination of several different study designs such as observational, experimental, descriptive and sample survey. The course also provides an overview of different methods of sampling, data collection and analysis frequently used in research literature. (Offered every Fall and Summer semester)

EDR 5100 - Intro to Inferential Stats: Ed  
Credit(s): 3 Credits  
This course is a survey of basic statistical methods including descriptive statistics, z-tests and t-tests of means and proportions, chi-square analyses, correlation and regression analyses, and analysis of variance. The statistical package for the social sciences (SPSS) will also be used. (Offered every Fall and Summer semester)

EDR 5400 - Qualitative Research in Education  
Credit(s): 3 Credits  
Students will learn the qualitative research paradigm, data collection and analysis techniques and report writing. (Offered every Spring semester)

EDR 5500 - Evaluation of Education Programs  
Credit(s): 3 Credits  
Course introduces students to program evaluation techniques and their application to schools. Builds on a basic understanding of research and evaluation processes to focus on alternative approaches to program evaluation and practical guidelines. Students will be required to conduct mini-evaluations; their involvement in these evaluations and the course reading will provide the background for seminar discussions. (Offered occasionally)

EDR 5800 - Action Research for Teachers  
Credit(s): 3 Credits  
The purpose of the course is to help practicing classroom teachers gain knowledge, insight, and experience doing systematic research in their classrooms using strategies consistent with what has become known as classroom/action/teacher research. This process can lead to pedagogical decision-making that narrows the gap between theory and practice. Classroom research serves as a tool for professional development and a vehicle for empowerment. Students collaborate with classmates as they learn about and engage in classroom-based action research. (Offered in Spring)

EDR 5930 - Special Topics  
Credit(s): 3 Credits (Repeatable for credit)

EDR 5950 - Special Study for Exams  
Credit(s): 0 Credits (Repeatable for credit)

EDR 5980 - Graduate Reading Course  
Credit(s): 1-3 Credits  
Prior permission of guiding professor required.

EDR 5990 - Thesis Research  
Credit(s): 0-6 Credits  
Research.

EDR 6000 - Professional Writing  
Credit(s): 3 Credits  
General theory of research: some emphasis on educational applications and quantitative approaches. (Offered occasionally)

Prerequisite(s): (EDR 5000 with a grade of C or higher or SLEM with a minimum score of S); (EDR 5100 with a grade of C or higher, SLES with a minimum score of S, or EDR 6100 with a grade of C or higher); (EDR 5400 with a grade of C or higher and SLEQ with a minimum score of S)

EDR 6010 - Doctoral Residency  
Credit(s): 0-3 Credits  
Prior permission of guiding professor.

EDR 6050 - Research Design and Analysis  
Credit(s): 3 Credits  
(Offered occasionally)

Prerequisite(s): (EDR 5000 with a grade of C or higher or SLEM with a minimum score of S); (EDR 5100 with a grade of C or higher, SLES with a minimum score of S, or EDR 6100 with a grade of C or higher)

EDR 6070 - Evidence Based Decision Making  
Credit(s): 3 Credits  
This course will introduce graduate students to the basics of educational research. It will provide an overview of basic statistical techniques which are used in educational research; the fundamentals of qualitative and quantitative educational research methodologies; designing educational research proposals; and how to read and evaluate published articles which report educational research. (Offered occasionally)
EDR 6100 - Intermediate Applied Statistics for Education
Credit(s): 3 Credits
This course provides background in many applied statistical techniques. A focus of the course is to develop students' understanding of multiple techniques so that they may judge the legitimacy of statistical results in articles and choose appropriate statistical methods. Topics include effect size, ANOVA, ANCOVA, MANOVA, regression and correlation, test construction, and multiple nonparametric tests. SPSS will be utilized throughout the course. This course can be used as a final statistics course or as a bridge for those students who want to pursue more advanced courses.
Prerequisite(s): (EDR 5000 with a grade of C or higher or SLEM with a minimum score of S); (EDR 5100 with a grade of C or higher, SLES with a minimum score of S, or EDR 6100 with a grade of C or higher)

EDR 6150 - Single Subject Experimental Research Design
Credit(s): 3 Credits
This course is an advanced quantitative research course concentrating on single subject research design and analysis for educators. It is designed to prepare students to design, conduct, and evaluate research using single subject designs. An understanding of the salient features as well as the advantages and disadvantages of these research methods is provided. Students will also analyze published research that uses these methods. (Offered occasionally)
Prerequisite(s): (EDR 5000 with a grade of C or higher or SLEM with a minimum score of S); (EDR 5100 with a grade of C or higher, SLES with a minimum score of S, or EDR 6100 with a grade of C or higher)

EDR 6350 - Measurement and Evaluation of Educational Outcomes
Credit(s): 3 Credits
This course will introduce various types of outcome and assessment measures used in K-16 educational setting for different purposes (e.g., formative/summative assessment, accountability, and program/policy evaluations), data collection methods, and the limitation in these assessment measures and their use. Students will also learn how these outcomes are analyzed using quasi-experimental designs to understand the effectiveness of educational programs and policies with the intent of improving student outcomes and educator and school effectiveness. Student will engage in critical examination of studies that rely on these various outcome measures as well as the analysis of data using methods learned in this class. (Offered in Fall, even years)
Prerequisite(s): EDR 6100 with a grade of C or higher

EDR 6600 - Designing Mixed Methods Research
Credit(s): 3 Credits
This class introduces students to how to analyze multilevel data where observations are nested within larger clusters, such as repeated measures nested within individuals, individuals nested within classrooms, and classrooms nested within schools. Advanced topics include longitudinal data analysis, discrete dependent variables, meta-analysis, and power and design considerations. (Offered in Spring in odd years)
Prerequisite(s): EDR 6100 with a grade of C or higher

EDR 6600 - Designing Mixed Methods Research
Credit(s): 3 Credits
This course introduces students to the issues and principles of mixed methods research design, based on the collection of qualitative and quantitative data that inform one another and result in valid and credible research. Students will design a mixed methods study appropriate for proposed research questions, including a theoretical framework. Social justice will be emphasized as a framework for mixed methods projects. (Offered every Fall semester)
Prerequisite(s): (EDR 5000 with a grade of C or higher or SLEM with a minimum score of S); (EDR 5100 with a grade of C or higher, SLES with a minimum score of S, or EDR 6100 with a grade of C or higher)

EDR 6930 - Special Topics
Credit(s): 3 Credits (Repeatable for credit)
EDR 6950 - Special Study for Exams
Credit(s): 0 Credits
Special study for exams.

EDR 6960 - Project Guidance
Credit(s): 0-4 Credits (Repeatable for credit)
EDR 6970 - Research Topics in Education
Credit(s): 3 Credits
Prerequisites: EDR 5000; EDR 5100; EDR 5400.
Prerequisite(s): (EDR 5000 with a grade of C or higher or SLEM with a minimum score of S); (EDR 5100 with a grade of C or higher, SLES with a minimum score of S, or EDR 6100 with a grade of C or higher); (EDR 5400 with a grade of C or higher or SLEQ with a minimum score of S)

EDR 6971 - Research Topics EdD
Credit(s): 3 Credits (Repeatable for credit)
Same as EDR 6970 except this course is for Ed.D. students.
Restrictions:
Enrollment limited to students in a Doctor of Education degree.

EDR 6980 - Graduate Reading Course
Credit(s): 1-3 Credits (Repeatable for credit)
Prior permission of guiding professor required.

EDR 6990 - Dissertation Research
Credit(s): 0-12 Credits (Repeatable for credit)
