FINANCE (FIN)

FIN 3010 - Principles of Finance
Credit(s): 3 Credits
This course is an introduction to financial decision-making in the firm, with a focus on how firms raise and invest funds. The central concept of the course is valuation. After the tools and techniques of valuation are applied to bonds and stocks, the course focuses on how managers choose among competing investment projects with the goal of maximizing the value of their firm's common stock. Finally, the course examines the concepts of risk and diversification and how they relate to expected returns on assets. Throughout, applications of these concepts to personal financial planning are also discussed.
Prerequisite(s): (ACCT 2200; ACCT 2220; OPM 2070; ECON 1900)
Restrictions:
Students in the Schl for Professional Studies college may not enroll.

Credit(s): 3 Credits  
The objective of this course is to provide students with hands-on experience in evaluating common stocks as investments and in the fiduciary management of investment assets. Students will manage an allocation from SLU's endowment funds. Students will be responsible for recommending a portfolio of common stocks, sales of existing portfolio assets and recommending replacement assets. While the performance of the portfolio will be a primary focus of the course, and will be reviewed on an ongoing basis, it is not presumed that the students will be able to beat the market on a consistent basis. Rather, the goal will be to deliver high quality practical education in an area of considerable interest to students and employers alike. In addition, the course will cover advanced topics in investments beyond those offered in FIN 3630.  
Prerequisite(s): FIN 3330; FIN 3630  
Restrictions: Students in the Schl for Professional Studies college may not enroll.
FIN 6360 - Private Equity and Venture Capital  
Credit(s): 3 Credits  
The Private Equity/Venture Capital (PE/VC) course explores the forms and methods of equity investment in new and growing businesses. Private equity represents conventional investments, typically in established and growing businesses across a wide range of industries. Venture capital involves high-risk, high-potential-return investments, typically in technology based firms. Topics include the equity investment process, investment vehicles including conventional equity investment and venture capital, the creation of private placement memos, the evaluation of equity investment opportunities, and the structuring of investment groups and deal structure and negotiation.  
Prerequisite(s): (FIN 6150 or FIN 6000)  
Restrictions: Students in the Schl for Professional Studies college may not enroll.

FIN 6380 - Derivative Securities and Markets  
Credit(s): 3 Credits  
This course shows how financial managers can use capital markets technology to create value. It explores how derivatives can be used to manage financial risks and position firms to exploit strategic opportunities, reduce financing costs, and structure incentives. Students learn the mechanics of options, forwards, futures, and swaps, and then study uses of these instruments through a series of case studies.  
Prerequisite(s): (FIN 6000 or FIN 6150)

FIN 6930 - Special Topics  
Credit(s): 3 Credits (Repeatable for credit)

FIN 6980 - Independent Study  
Credit(s): 1 or 3 Credits (Repeatable for credit)
