IB 3140 - International e-Business
Credit(s): 3 Credits
Except for counted exceptions, as a business approach that relies on the Internet, where national boundaries are inexistent, e-Commerce is to be considered “Global”, per se. In the last years of the past century and during the first decade of the 2000’s, after the Dot-com bubble burst, the Internet has revolutionized the way in which we conduct business, internationally. Furthermore, by rising from 16 million users (0.4% of the world population) in 1995, to 2.75 billion (38.8% of it) in 2013, according to Internet World Stats, the Internet is not just part of “how we trade” but actually represents “how we live”. Businesses, entrepreneurs, marketers and, in general, managers not considering this fact, or not adapting to the broad range of cultural, demographic, technological and political issues worldwide, will not be able to succeed in their global e-commerce strategies. To help International Business Administration students prepare for these challenges and opportunities, this course introduces them to a wide range of e-Business issues and practices, particularly Global Market opportunity analysis, Business Models, and all the Strategic and Technological major aspects of e-Commerce.
Prerequisite(s): IB 2000; (ITM 2000 or ITM 2010)

Prerequisite(s): IB 2000
IB 3160 - Cultural Differences in International Business  
Credit(s): 3 Credits  
Ample evidence abounds that cultures of the world are getting more and more in contact as the business world becomes increasingly global. Given this globally interdependent economy, it is imperative that students understand the value of culture when conducting business across boundaries. This course examines the concept of ‘culture’ as it applies in an international business context. Among those topics discussed are communicating and negotiating across cultures, the impact of culture on global alliances and strategy, and multicultural teams in international organizations. Classroom discussions are based on text readings as well as specific country-based cases. Prerequisite(s): IB-2000.
