**PRE-PROFESSIONAL HEALTH STUDIES (PPHS)**

**PPHS 1000 - Foundations of Medicine**  
Credit(s): 1 Credit  
This course provides a broad survey of premedical studies, the preparation for medical school admission and the medical profession. The class will address the specifics of medical school admission requirements and processes, academic coursework at the undergraduate and professional school level, the training of the physician and typical routines of a medical practice. The sequence of events from undergraduate coursework to becoming a licensed physician will be discussed. The class will examine how this sequence plays an integral part in the development of a capable physician. Medical Scholars may not enroll in this course.

**PPHS 1020 - Intro to Helping Professions**  
Credit(s): 2 Credits  
This course explores career opportunities in the helping professions. Eleven professions are reviewed including clinical laboratory science, communication sciences and disorders, education, health information management, nuclear medicine technology, nursing, nutrition and dietetics, occupational science, physical therapy, psychology and social work. Students receive presentations from faculty in each of these areas and engage in a number of assignments to increase their knowledge of those professions in which they are most interested.  
**Restrictions:**  
Enrollment limited to students with a classification of Freshman or Sophomore.

**PPHS 1050 - Medical Scholar**  
Credit(s): 0 Credits  
This course is required (and is limited to) freshman Medical Scholars. A variety of activities are planned with some lectures, hands-on activities, and networking with the SLU School of Medicine students and faculty.  
**Restrictions:**  
Students with a classification of Junior or Senior may not enroll.

**PPHS 2000 - Introduction to Medical Research Class**  
Credit(s): 2 Credits  
The Introduction to Medical Research Class is a lecture-based course designed to introduce undergraduate students to clinical research in an academic medical setting via lectures and group work. Throughout the course, the class will address a range of topics including medical ethics, research modalities and tools in evaluating studies. Attending emergency medicine faculty from Saint Louis University Hospital will teach the course. The class will look at how clinical research and the application of evidence-based medicine is used to change treatment standards in patient care.  
**Prerequisite(s):** (BIOL 1040 or (BIOL 1240 and BIOL 1245)); (BIOL 1060 or (BIOL 1260 and BIOL 1265)); CHEM 1120; CHEM 1125

**PPHS 2930 - Special Topics**  
Credit(s): 3 Credits

**PPHS 2980 - Independent Study**  
Credit(s): 1 or 3 Credits

**PPHS 3910 - Internship**  
Credit(s): 1-3 Credits  
This course is designed to introduce undergraduate students to the practice of dental and oral medicine in a clinical setting. Throughout this course students will gain the opportunity to shadow dentists in three specialty areas: orthodontics, endodontics, and periodontics to foster greater awareness of the challenges and rewards of dentistry. The internship consists of sixty hours of shadowing at SLU’s Center for Advanced Dental Education.

**PPHS 4930 - Special Topics**  
Credit(s): 3 Credits

**PPHS 4980 - Independent Study**  
Credit(s): 1 or 3 Credits
