SIMULATION CENTER (SIM)

SIM 0101 - Management of the Critical Patient & Procedures  
Credit(s): 3 Credits (Repeatable for credit)  
Didactic and hands on skills to include: Phlebotomy; Airway  
Management: basic airway management, advanced airway management,  
surgical airway management; Fluid resuscitation: central line placement,  
insertion of peripheral IV’s; Other hands on skills: chest tube placement,  
lumbar puncture; reviewing BLS, ACLS, and trauma life support protocols  
as well as code simulations.

SIM 0102 - Management of the Critical Patient & Advanced Procedures  
Credit(s): 3-6 Credits (Repeatable for credit)  
Didactic and hands on skills to include: Phlebotomy; Airway  
Management: basic airway management, advanced airway management,  
surgical airway management; Fluid resuscitation: central line placement,  
insertion of peripheral IVs; Other hands on skills: chest tube placement,  
lumbar puncture; reviewing BLS, ACLS, and trauma life support protocols  
as well as code simulations.

SIM 0401 - Simulation Lab  
Credit(s): 1-12 Credits (Repeatable for credit)  
Hands on skills to include: Airway Management: basic airway  
management, advanced airway management, surgical airway  
management; central line placement, chest tube placement, insertion of  
peripheral IV’s, lumbar puncture, Reviewing BLS and ACLS protocols as  
well as code simulations. Assist with teaching some hands-on skills to  
MS-3 students.

SIM 0902 - Simulation Non-Direct Patient Care  
Credit(s): 1-12 Credits (Repeatable for credit)
