STATISTICS (STAT)

STAT 1100 - Introduction to Statistics
Credit(s): 3 Credits
Basic descriptive and inferential statistics. Emphasis on becoming a smart consumer of statistics. Will include the study of examples of statistics in the medical news. Credit not given for MATH 1300 or MATH 1260 or OPM 2070 and STAT 1100.
Prerequisite(s): MATH 0260 with a grade of C- or higher, SLU Math Index with a minimum score of 750, MATH 1200, MATH 1205, MATH 1400, MATH 1320, MATH 1510, or MATH 0265 with a grade of C- or higher.

Restrictions:
Students in the Chaifetz School of Business college may not enroll.

STAT 1260 - Statistics Including Sports and Politics
Credit(s): 3 Credits
A SLU inquiry seminar. Producing data through the use of samples and experiments; organizing data through graphs and numbers that describe the distribution of the data of one variable or the relationship between two variables; probability; statistical inference including confidence intervals and tests of significance.
Prerequisite(s): MATH 1200 with a grade of C- or higher or Math Waiver per Advisor with a minimum score of 1200.

STAT 1300 - Elementary Statistics with Computers
Credit(s): 3 Credits
Data production and analysis; probability basics, distributions, sampling, estimation with confidence intervals, hypothesis testing, t-test, correlation and regression; Cross tabulations and chi-square. Students learn to use a statistical package such as SPSS. Credit not given for STAT-1300 and any of the following: MATH-1300 or OPM 2070.
Prerequisite(s): (1 Course from MATH 1200-4999 or Math Waiver per Advisor with a minimum score of 1200).

STAT 1930 - Special Topics
Credit(s): 0-3 Credits
A SLU inquiry seminar. Producing data through the use of samples and experiments; organizing data through graphs and numbers that describe the distribution of the data of one variable or the relationship between two variables; probability; statistical inference including confidence intervals and tests of significance.
Prerequisite(s): MATH 1200 with a grade of C- or higher or Math Waiver per Advisor with a minimum score of 1200.

STAT 2300 - Intermediate Statistics
Credit(s): 3 Credits
A statistically sophisticated, data driven course covering one and two variable comparisons of means, simple linear regression, multiple regression and two-way analysis of variance. Data wrangling and visualization. Assumptions of methods, robustness to deviations from assumptions and communicating results of statistical tests in professional ways will be taught throughout the course. (Offered in Spring)
Prerequisite(s): STAT 1300.

STAT 2380 - Probability Theory
Credit(s): 3 Credits
Axioms of probability, conditional probability. Discrete and continuous random variables, expectation, jointly defined random variables. Transformations of random variables and limit theorems. Theory and applications, taught using statistical software. Credit not given toward the math major or minors for any two of MATH 3800, MATH 4800 and MATH 4810.
Prerequisite(s): (MATH 3850 or STAT 3850); (MATH 2530; (MATH 1660 or MATH 2660).

STAT 3910 - Internship
Credit(s): 1-6 Credits (Repeatable for credit)

STAT 3930 - Special Topics
Credit(s): 3 Credits (Repeatable for credit)

STAT 3980 - Independent Study
Credit(s): 1 or 3 Credits (Repeatable for credit)
STAT 5085 - Mathematical Statistics
Credit(s): 3 Credits
Theory of estimators, sampling distributions, hypothesis testing and confidence intervals, regression, bootstrapping, resampling, introduction to Bayesian statistics and elementary experimental design.
Prerequisite(s): MATH 5080

STAT 5087 - Applied Regression
Credit(s): 3 Credits
Linear regression, model selection, nonparametric regression, classification and graphical models. Theory and applications using statistical software.
Prerequisite(s): (MATH 3850 or STAT 3850); (MATH 3110 or MATH 3120)

STAT 5088 - Bayesian Statistics and Statistical Computing
Credit(s): 3 Credits
This course introduces Bayesian statistical methods and statistical computing techniques using statistical computing software. Topics include Bayesian models, Markov chain Monte Carlo, hierarchical modeling, model comparison and regression models.

STAT 5930 - Special Topics
Credit(s): 3 Credits (Repeatable for credit)

STAT 5980 - Independent Study
Credit(s): 1 or 3 Credits (Repeatable for credit)
