Erica K. Salter, Ph.D.
Graduate Program Coordinator
Harold Braswell, Ph.D.
Undergraduate Program Coordinator

Overview
Established in 1979 to provide ethics education and consultations within the Saint Louis University School of Medicine, the Albert Gnaegi Center for Health Care Ethics has grown into an academic department with a multidisciplinary faculty with vibrant research, service programs and educational offerings.

The mission of the Center for Health Care Ethics is academic research integrated with teaching, learning and service in health care ethics. Consistent with this mission, the interdisciplinary undergraduate minor and Ph.D. program in health care ethics were established.

The center’s faculty are nationally recognized, teach the vast majority of courses and supervise all dissertations in the center. The main program objective is to prepare individuals for careers in academic, corporate, research and clinical bioethics settings.
