DEPARTMENT OF
MATHEMATICS AND
STATISTICS

Leadership
Bryan Clair, Ph.D.
Department Chair
Brody Johnson, Ph. D.,
Associate Chair, Undergraduate Program Coordinator
Jim Gill, Ph.D.
Graduate Program Coordinator

Overview
In Mathematics, the department offers a Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Master of Arts (M.A.) and Doctor of Philosophy (Ph. D.) in Mathematics, as well as a minor in mathematics, a minor in engineering mathematics, and a minor in actuarial mathematics. The department also participates in a Master of Science (M.S.) program in Bioinformatics and Computational Biology, and in Accelerated Bachelors/Masters programs that combine this M.S. degree with either of the Bachelors offerings.

Faculty are leaders in both research and teaching, and students go on to many career paths, including business, industry, medicine, government, and education.

Mathematics and Statistics courses meet the needs of students with a wide variety of interests. The department offers several introductory courses to satisfy the core curriculum requirements, as well as courses that provide students in other disciplines with the mathematical and statistical background that they need for their chosen fields of study. Students who major in Mathematics are prepared for careers in business, industry, government, and education, or for further study at the graduate level, in math, computer science, law, or medicine.
