SPECIAL EDUCATION PROGRAM

Leadership
Jennifer Buehler, Ph.D.
Program Director

Overview
The programs in Special Education are designed to provide individuals with skills in policy development and/or expanded knowledge in a specific disability area: early childhood special education, behavior disorders, learning disabilities, or intellectual disability. Students choosing this area will focus on developing knowledge and skills related to special educational issues at the national and international level.

About the Faculty
Faculty members take a genuine interest in students, serve as strong role models of success and acquaint students with the challenges and joys of the profession. The faculty seek an appropriate balance between theory and practice, between action and reflection, and between intellect and affect.
