

2.5 CONDUCT OCCURRING OFF CAMPUS

The Director of Student Responsibility and Community Standards, or designee, or the Vice President for Student Development has ultimate discretion in determining whether or not off campus incidents will be addressed under the Community Standards. Factors that are considered in determining whether or not an off campus incident will be addressed under the Community Standards include but are not limited to:

- The extent to which the behavior significantly impairs, obstructs, or interferes with the mission, processes or normal functions of the University.
- The impact of the behavior upon other members of the University.
- The potential positive impact that a resolution of the matter under the Community Standards would have on the University community and the Student.
